   Ethics and governance of artificial intelligence for health: large multi-modal models. WHO guidance World Health Organization,2024-01-18 Artificial Intelligence AI refers to the capability of algorithms integrated into systems and tools to learn from data so that they can perform automated tasks without explicit programming of every step by a human Generative AI is a category of AI techniques in which algorithms are trained on data sets that can be used to generate new content such as text images or video This guidance addresses one type of generative AI large multi modal models LMMs which can accept one or more type of data input and generate diverse outputs that are not limited to the type of data fed into the algorithm It has been predicted that LMMs will have wide use and application in health care scientific research public health and drug development LMMs are also known as general purpose foundation models although it is not yet proven

whether LMMs can accomplish a wide range of tasks and purposes   *Customer-Centric Innovation in Finance* Erin B Taylor,Anette Broløs,2024-04-03 The competition landscape of finance is changing fast and it has never been so important for the finance industry to truly understand their customers Customer Centric Innovation in Finance helps finance and fintech innovators understand customers behavioural motivations to drive effective product development Relying on quantitative data is not enough numbers can be great at telling us what people are doing but they often fail to explain why people do what they do And if a service doesn t exist yet there is no data to tell us how people use it Human insights behavioural science and qualitative data add immense value to product development Readers will learn to innovate smarter by getting a firm understanding of why customers like their solutions and how they adapt them to suit their needs The book presents real life examples throughout of how customers are changing their behaviour in response to a fast evolving financial landscape and provides practical advice on how to transform such insights into innovation It explores how to produce customer insights for services that don t exist yet for instance Central Bank Digital Currencies CBDCs It also provides descriptions of hands on tools to build new insights and apply them to innovation and of methodologies such as portable kits personas digital ethnography observations and interviews   **Interview Mastery: Tips & Techniques** Jennifer shrine, Book Description Unlock the secrets to acing interviews and landing your dream job with Interview Mastery Tips Techniques Whether you re a recent graduate a professional seeking career growth or someone looking to transition into a new industry this comprehensive guide equips you with the tools strategies and insider knowledge to succeed in any interview scenario Inside this book you ll discover Proven techniques for mastering body language communication and professional presence Strategies for video and remote interviews ensuring you impress from anywhere Guidance on crafting powerful resumes and portfolios that get noticed Methods to tackle behavioral and situational questions with confidence Tips for negotiating offers handling multiple opportunities and overcoming rejection Advanced tactics to leverage networking personal branding and strategic research Packed with actionable advice real world examples and practical exercises Interview Mastery empowers you to walk into every interview with confidence clarity and a competitive edge Say goodbye to anxiety and uncertainty and step into every opportunity fully prepared to shine Whether it s your first interview or your fiftieth this book is your ultimate companion to achieving interview success and accelerating your career   *Getting Skills Right Training Supply for the Green and AI Transitions Equipping Workers with the Right Skills* OECD,2024-12-11 Adult learning systems are being called upon to prepare workers for major labour market shifts including the green transition and the rise of artificial intelligence AI in the workplace While initial education is important upskilling and reskilling the existing workforce is essential to help individuals and businesses adapt and prepare for these transitions Policy makers face the challenge of ensuring training is both relevant and inclusive yet there is limited understanding of whether current training supply is sufficient to meet current and future skill needs Most research focuses on the demand for skills with little insight into the supply To fill this gap this

report uses evidence from new OECD questionnaires and an analysis of training catalogues to evaluate whether current training supply aligns with the skills needed for the green and AI transitions It also provides insight into the accessibility and flexibility of training efforts to guide policy makers in their efforts to develop more effective inclusive training strategies

The Hitchhiker's Guide to AI Arthur Goldstuck,2023-12-01 For the past decade Arthur Goldstuck has had a front row seat to witness the remarkable rise of AI across all sectors of business and society As generative AI becomes a household phrase and sparks hopes and fears of machines augmenting or replacing human beings this guide offers an invaluable overview of the past present and future of AI The Hitchhiker s Guide to AI is aimed at both beginners and those who consider themselves experienced or skilled at using AI It draws on many years of direct access to global and regional leaders in using AI from Africa to the Middle East to North America to Europe and Asia and it provides unique perspectives on generative AI as well as practical advice for using it It is useful for consumers academics professionals and anyone in business who wants to get up to speed quickly and practically It also entertains and inspires anyone who is curious about AI or already engaged in its possibilities Need to understand or refine prompting You re in the right place Need to prepare for the coming impact of AI on health travel education and business This is the book for you **Teaching Literature with Artificial Intelligence** Eric D. Abrams,2025-09-15 Teaching Literature with Artificial Intelligence explores the use of chatbots as participants in the teaching and learning of literature in high school and college classrooms while highlighting potentially outmoded norms and expectations of ELA instruction Artificial intelligence programs have profoundly altered the daily realities of teachers and students inspiring concern and opportunity alike Thought provoking theoretically grounded and full of replicable autoethnographic experiments this book offers real world examples of generative chatbot technologies in ELA classrooms positioning their accessibility and ubiquity as an incentive for critiquing and enriching traditional teaching and learning approaches Graduate students teaching faculty and scholars of teacher education English and literature education digital literacies and learning design will come away with a sharp critique of the purported affordances of chatbots as well as an incisive demonstration of AI as a classroom tool that supports rather than diminishes the meaningful learning critical thinking and agentive development of young people today *Machina Sapiens* Nello Cristianini,2025-08-19 Can machines think This troubling question posed by Alan Turing in 1950 has perhaps been answered today we can converse with a computer without being able to distinguish it from a person Machines can pass university exams and program other computers ChatGPT Bard and other language models have proved proficient at performing tasks far beyond their creators initial expectations and we still do not know why Trained simply to predict missing words in a text such models have gained an understanding of the world and language that makes them capable of reasoning planning solving problems as well as conversing almost flawlessly Is this the secret of knowledge and is it now in the hands of our creations Perhaps we are no longer alone And as we try to figure out how to share these powers with the aliens who now work at our side we can wonder

what else they may learn tomorrow Are we approaching a critical threshold beyond which machines will attain superhuman performance Following on from The Shortcut Nello Cristianini has authored another brilliant book written like a gripping thriller explaining the ideas behind a technology destined to change the world If our worst terror has always stemmed from fear of the unknown the cure since time immemorial is knowledge   The Ultimate Guide to ChatGPT Prompts Remon Geyser,2025   **ChatGPT Unlocked** Aileen Santos,2024-10-29 Unlock the full potential of ChatGPT with this comprehensive beginner s guide ChatGPT Unlocked The Ultimate Beginner s Guide with Tips Tricks and Prompts to Master AI Conversations Whether you re new to AI or looking to deepen your skills this book will empower you to make the most of ChatGPT as a versatile all in one tool for daily life Packed with expert tips tailored tricks and beginner friendly prompts this guide explores everything from getting started with simple commands to advanced prompt techniques that yield powerful results Discover how ChatGPT can assist you in productivity creativity organization and learning Each section is designed to enhance your confidence and skill in interacting with ChatGPT making it a helpful companion for personal and professional growth Ideal for anyone looking to integrate AI into their routine this guide provides the essential insights and practical tools needed to make ChatGPT your go to resource for brainstorming problem solving organizing and so much more Dive in to unlock the capabilities of ChatGPT and transform the way you approach tasks projects and ideas   The ChatGPT Revolution Donna McGeorge,2024-09-16 Learn how to simplify your life with AI in this essential guide now fully updated and revised with even more ideas to spark creativity and boost efficiency The ChatGPT Revolution is the ultimate quick start guide to unlocking the power of generative AI We re on the edge of an AI revolution but what does that mean for you It s time to get curious about how the latest tech can help you handle your everyday load at work and at home Whether you re overwhelmed by repetitive time consuming tasks or you re simply looking for a fresh injection of creativity ChatGPT has got your back With this essential handbook you ll learn how quickly and easily apps like ChatGPT can turn your to do list into a ta da list From emails and reports to planning your next meal or vacation generative AI can help you simplify your daily tasks and responsibilities The ChatGPT Revolution shows you exactly how to use this innovative tech to save on time and stress Sharing practical tips and fun ideas acclaimed productivity expert Donna McGeorge unpacks everything you need to know Learn how generative AI is already being used in everyday life and how tools like ChatGPT are transforming the future of work and life admin Understand the different tasks that AI tools like ChatGPT Copilot and DALL E can do and when and how to use these tools most effectively Get step by step advice for writing smart specific prompts and follow up queries to produce better results Discover tips for using ChatGPT on the go with the mobile app and voice and photo capability Take control revitalise your workflows and overcome procrastination and creative blocks with entertaining examples and activities for work home creative writing and more Whether you re a busy professional or you simply want an answer to the dreaded question What s for dinner The ChatGPT Revolution reveals how generative AI can make your life easier AI technologies are here to stay This
