China's Electric Vehicle Industry Yingqi Liu, 2025-09-01 Innovation and Development of China's New Energy Vehicles Industry provides comprehensive insights into the role of new energy vehicles in facilitating the global energy transition. The book aims to foster an understanding of how these vehicles contribute to the shift towards green energy. Drawing from extensive data collected from over 20 cities, 40 companies, and more than 500 questionnaires, the book offers practical information for policymakers and industry stakeholders. Beyond the technological aspects such as battery technology, electric drive systems, and charging infrastructure, the book also discusses policy support mechanisms, financial subsidies, tax incentives, and regulatory frameworks. It includes international case studies from the USA and UK, aiding readers in grasping the global dynamics and fostering international cooperation. The book is essential for understanding the interplay between new energy vehicles and energy transition, providing actionable insights for industry professionals, researchers, and policymakers. Presents comprehensive insights into the current Chinese approach to the new energy vehicle industry. Highlights technological innovation as the core driving factor in business model innovation, aligning with the rapidly evolving nature of new energy vehicles and their reliance on technological breakthroughs in battery systems, energy storage, and charging infrastructure. Includes case study comparisons to new energy vehicle industry development in other countries and in global policy development.
