### Understanding the Start Screen & the Ribbon

Use the **Start Screen** to open an existing file or create a new document. The Start Screen launches when starting Excel, PowerPoint or Word without a document. If a document is open, choose the "File" tab in the Ribbon to enter Backstage View and then select "New" or "Open" from the menu for similar options.

The **Ribbon** is displayed along the top of the application window in Excel, PowerPoint and Word and replaces the Menu Bar in older versions of Office. The Ribbon is divided into tabs. Within these tabs are different groups of commands, accessed through the use of buttons, boxes, and menus.
