

# WHAT IS REDSTONE?

## WHERE CAN I GET IT?

You can find redstone in various forms. It comes in 16 to 128 as normal redstone dust, or the decorative redstone ore consists of six red blocks through which a basic current of redstone dust flows. If you want to mine the ore, which will release up to five pieces of redstone dust when it's destroyed.

One last bit of trivia: redstone is the primary conductor of signals. In its purest form of redstone dust, it can be used to create many components, or forward a signal between them. If you want to automate and tinker in Minecraft, redstone is key.

## WHAT CAN I DO WITH A REDSTONE SIGNAL?

The various pieces of redstone dust will create a signal that can be used to move adjacent blocks, including normal blocks, as well as those that have a redstone function (like repeaters, logic gates, etc.). If a signal is applied to a block that has a function, it will cause it to turn that block for as long as the signal is present.

## WHAT CAN YOU DO WITH THE DUST?

Everything! If you place dust on top of a block, it will convert it to a dust block. But place a power source such as a redstone torch, power it, and it will become much stronger, give off particles and carry a signal.

But that's not all, of course. If you place redstone dust on adjacent blocks, they'll join together and reconfigure to carry the signal in one to four directions. Here are just a few of the configurations that you can make:

## SO THERE'S AN ENDLESS POWER SUPPLY?

Not quite. It can last forever, but its strength decreases over time and its distance, which you'll learn more about later. The redstone torch provides the maximum power of 128% and adjacent redstone dust, but that decreases to 1% every block of distance you pass. So a redstone torch can only power redstone dust for 128 blocks max.

## IS THERE ANYTHING ELSE IT CAN DO?

That wasn't enough for you? Well fine, redstone dust can also used in conjunction to create redstone components such as repeaters, comparators and observers, as well as redstone logic and other similar items such as switches and repeaters. Oh, and it can also be used in conjunction to increase the strength of an effect!
