The Oxford Handbook of Structural Transformation Célestin Monga,Justin Yifu Lin,2019-02-07 The Oxford Handbook of
 Structural Transformation addresses the economics of structural transformation around the world It deals with major themes
 which include history and context critical issues and concepts methodological foundations main theoretical approaches policy
 issues some illuminating country experiences of structural transformation and important debates on the respective roles of
 the market and the state in that process The historical record provides a challenge for economists to understand the success
 of the rising economic powers some of them initially considered unlikely candidates for prosperity and the stagnation or
 decline of others Five major questions emerge Why has so much divergence occurred among nations of the world since the
 Industrial Revolution and particularly during the 20th century Why has the pattern changed recently with the emergence of a
 few developing economies e g the multi polar world and can it be sustained What are the key drivers strategies and policies
 to foster structural transformation in various different country contexts and in a constantly evolving global economy How
 could low and middle income countries avoid development traps and learn from past experiences whilst exploiting the new
 opportunities offered by the Fourth Industrial Revolution What is the role of various development stakeholders and other
 important players in facilitating sustained economic convergence among nations This book addresses these questions
 bringing the rigor usefulness and multi disciplinary scope of the Oxford Handbook series to a critical topic in economics The
 Oxford Handbook of Structural Transformation is an essential reference work and a stimulus to new research and creativity
