drives traffic to the order pages and the wholesaler takes care of product fulfillment such as delivery and packaging. In some cases you can even have the manufacturer brand the product with your own name and have them ship it to your customers. This business model is of immense help to the manufacturer and wholesaler since they get to focus on investing in what they know best which is manufacturing the product. You get to focus on what you know best which is to drive traffic and bring in sales. In effect you're a one person marketing team for the wholesaler's products. What's not to like? The customer will order the product via your website or sales channel and will pay you money. In turn you pay the wholesaler at their quoted price and you pocket the profits.
