Computer Vision Md Atiqur Rahman Ahad, Upal Mahbub, Matthew Turk, Richard Hartley, 2024-07-30 Computer vision has made enormous progress in recent years and its applications are multifaceted and growing quickly while many challenges still remain. This book brings together a range of leading researchers to examine a wide variety of research directions, challenges and prospects for computer vision and its applications. This book highlights various core challenges as well as solutions by leading researchers in the field. It covers such important topics as data driven AI, biometrics, digital forensics, healthcare, robotics, entertainment and XR, autonomous driving, sports analytics and neuromorphic computing, covering both academic and industry R & D perspectives. Providing a mix of breadth and depth, this book will have an impact across the fields of computer vision, imaging and AI. Computer Vision Challenges, Trends and Opportunities covers timely and important aspects of computer vision and its applications, highlighting the challenges ahead and providing a range of perspectives from top researchers around the world. A substantial compilation of ideas and state of the art solutions, it will be of great benefit to students, researchers and industry practitioners.

Managing Artificial Intelligence and Expert Systems Daniel A. De Salvo, Jay Liebowitz, 1990 Three major areas are examined: teamwork required to implement AI technologies, strategies for developing computer resources using AI, and tactics for overseeing implementation and day to day operation. The conference was aimed at bringing together researchers, scholars, academicians, and industry professionals to discuss the latest advancements and innovations in the field of computer technologies. The conference began with an opening ceremony where the chief guests and dignitaries were welcomed by the organizers. The keynote address was delivered by a renowned expert in the field of computer technologies who spoke about the importance of innovation in driving progress and growth in the industry. This was followed by technical sessions where researchers and professionals presented their papers on various topics related to computer technologies. The technical sessions covered a wide range of topics including but not limited to artificial intelligence, machine learning, data science, computer networks, security and privacy, computer graphics and visualization, software engineering, and emerging technologies. The presentations were well received by the audience who actively participated in the discussions and provided valuable feedback to the presenters. Apart from the technical sessions, the conference also featured a panel discussion on the topic of The Future of Computer Technologies. The panel comprised

experts from academia and industry who shared their insights and perspectives on the future direction of the field. The discussion covered various topics such as the impact of emerging technologies like blockchain and quantum computing, the role of artificial intelligence and machine learning in shaping the future of work and the challenges and opportunities in ensuring the ethical use of technology. Overall the conference provided a platform for researchers and professionals to share their ideas, insights and experiences and to collaborate and network with their peers. The organizers thanked all the participants and sponsors for their support in making the conference a success and announced plans to host a follow up event next year.
