Current Literature, 1894 **s. award's school chronicle.**, 1884 *Intellectual Property and Sustainable Development* Ricardo Meléndez-Ortiz, Pedro Roffe, 2009 This is a thought provoking book with relevance to a broad readership, especially IP practitioners with a strong international focus. *Australian Intellectual Property Law Bulletin* Intellectual property (IP) has gained an unprecedented importance in the new world of globalization and the knowledge economy. However, experience as well as cyclical attitudes toward IP show that there is no universal model of IP protection. This comprehensive book considers new and emerging IP issues from a development perspective, examining recent trends and developments in this area. Presenting an overview of the IP landscape in general, the contributing authors subsequently narrow their focus, providing wide ranging case studies from countries across Africa, Asia, and Latin America on topical issues in the current IP discourse. These include the impact of IP on the pharmaceutical sector, the protection of life forms and traditional knowledge, geographical indications, access to knowledge, and public research institutes, and the role of competition policy. The challenges developing countries face in the TRIPS Plus world are also explored in detail. The diverse range of contributions to this thought provoking book offer a wide variety of alternative perspectives on and solutions for the controversial issues surrounding the role of IP within sustainable development. As such, it will prove a stimulating read for government policy makers, trade negotiators, academics, lawyers, and IP practitioners in general. UN and other
