The Nurse Educator's Guide to Assessing Learning Outcomes

McDonald, 2007-03-07 The new edition of this award winning text helps address the increased pressure that the NCLEX and other certification exams are placing on nursing students and faculty. The Nurse Educator's Guide to Assessing Learning Outcomes 2nd Edition guides classroom educators through the process of developing effective classroom exams and individual test items.

Systematic Assessment of Learning Outcomes Mary McDonald, 2002 This book is designed to be the comprehensive reference which focuses on the development of the most commonly used type of classroom assessment: the multiple choice exam.

Developing and Validating Multiple-choice Test Items Thomas M. Haladyna, 1994 This is the most current and comprehensive book devoted to item writing. It addresses the related topics of multiple choice test item development and validation of responses to these test items: two critical steps in the development of any cognitive test. In so doing, the volume provides a conceptual basis for item writing, reviews the issue of constructed versus selected response testing, presents a variety of formats, provides guidance in developing items as well as a basis for reviewing, evaluating, and improving items, and speculates about the future of item development and validation. This book helps readers better understand the concepts, principles, and procedures available to build better test items that will lead to more reliable tests of ability and achievement.

Buddhist Psychology & Philosophy for Modern Minds Book Series, Introduction to the Volume Welcome to Vibha ga Dissecting Reality the second volume in the Abhidhamma Awakened series. If Volume 1 was the cartographer's chart methodically enumerating the 89 or 121 types of consciousness, the 52 mental factors, and the 28 material phenomena, Volume 2 invites you into the surgeon's chamber. Drawing from the Vibha ga Analysis or Dissection, the second book of the Abhidhamma Pi aka we shift from naming the parts of experience to vivisectioning them through multiple lenses. This is no mere intellectual exercise; it's a transformative practice that equips you to unravel the knots of dukkha in real time. In an age of relentless digital pings and existential drift, the Abhidhamma's analytical method offers a refuge, a way to pause, probe, and pivot amid the mind's ceaseless arising and passing. Here you'll master lens-switching fluidly, viewing a single moment, say the sting of an email notification, through the khandhas as clumping aggregates, fueling craving, yatanas as sense doors hijacked by contact, and dhammas as elemental fluxes.

beyond self From these foundations we extend the dissection to canonical pillars like the Four Noble Truths the faculties the path factors satipa h na and dependent arising weaving sutta wisdom into Abhidhamma precision Each chapter unfolds with a modern hook a relatable scenario like Zoom call overload or browser tab temptation followed by doctrinal core guided practices and rigorous assessments Visual plates diagrammatic tools and tables serve as your workbench while micro logs invite personal integration This volume isn t an endpoint it s a bridge to deeper integration in Volumes 3 and beyond As the Buddha taught reality is dissected not to fragment but to reveal wholeness May your study here awaken the surgeon within wielding wisdom with grace
