Multiplication Number Splitting Grid Method:

Primary Mathematics: Teaching For Understanding Barmby, Patrick, Bilsborough, Lynn, Harries, Tony, 2009-09-01
This book addresses the particular areas of mathematics within the primary curriculum that teachers find difficult to teach and in which children struggle to achieve. It begins with introductory sections on how children learn mathematics and is then organised on a subject area basis dealing with the teaching of particular maths topics. Key topics addressed include rounding and measuring means and medians, fractions, negative numbers, commutative and associative laws in number operations and shape and space. Within each chapter the authors examine the themes of representing, reasoning and communicating, drawing out both the subject knowledge and ways of teaching each topic. A reference section for studies drawn upon is provided at the end of each chapter.

Framework Maths David Capewell, 2002
The Framework Maths course is designed to match the pitch, pace and progression of the Framework for Teaching Mathematics at Key Stage 3. This student's book is written for the Extension tier in Year 7 and is suitable for students working beyond the Framework objectives. It comprises units organized clearly into full colour spreads. Each unit offers prior learning points identified at the start so that revision is a continual process, learning objectives covered with examples showing the key techniques, plenty of practice with questions pitched at the level suggested in the framework and summaries and review questions to help students gain responsibility for their learning.

Basic Maths For Dummies Colin Beveridge, 2011-09-19
Basic maths for dummies offers the content people need to improve their basic maths skills. Filled with real world examples and written by a mathematician who specialises in tutoring adults and students, the book also provides practical advice on overcoming maths anxiety and a host of tips, tricks and memory aids.

Developing Number Sense Julia Anghileri, 2008-05-15
Developing Number Sense identifies innovative teaching practices and provides a rigorous treatment of arithmetic and its assessment at Key Stages two and three.

Solutions Support Book 7 David Baker, 2005
This is a major new series developed to provide complete coverage of the framework for teaching mathematics and Medium Term Plan in a highly accessible and modern format.

Years 6 - 8 Maths For Students The Experts at Dummies, 2015-12-10
Your tutor in a book. Master the essential mathematical skills for success. I don't know how to do this is a refrain heard whilst many a student is doing homework. Parents are increasingly called on for assistance but are themselves struggling to help their children. Years 6-8 Maths For Students is a reference guide for both students and parents aiming to fill the gaps in a student's knowledge base, build confidence and reduce stress. Written with the same friendly how-to approach of the successful For Dummies books, this new educational reference will empower students and develop their mathematical skills for exams, NAPLAN testing and most importantly, life beyond secondary school. With worries that students are being taught to pass tests at the expense of understanding, this guide will help students cement their mathematical foundations. Grasp the nuts and bolts of numbers, algebra, geometry and measurement. Helps students with maths as they transition from primary to secondary school. Complete homework and
