**AutoCAD 2025: A Power Guide for Beginners and Intermediate Users** Sandeep Dogra, AutoCAD 2025: A Power Guide for Beginners and Intermediate Users. This textbook is designed for instructor-led courses as well as for self-paced learning. It is intended to help engineers, designers, and CAD operators interested in learning AutoCAD to create 2D engineering drawings as well as 3D Models. This textbook is a great help for new AutoCAD users and a great teaching aid for classroom training. The textbook consists of 13 chapters and a total of 550 pages, covering major workspaces of AutoCAD such as Drafting, Annotation, and 3D Modeling, teaching you to use AutoCAD software for creating, editing, plotting, and managing real-world 2D engineering drawings and 3D Models. This textbook not only focuses on the usage of the tools and commands of AutoCAD but also the concept of design. Every chapter of this textbook contains tutorials that provide users with step-by-step instructions on how to easily create mechanical designs and drawings. Moreover, every chapter ends with hands-on test drives allowing users to experience AutoCAD's user-friendly and powerful capabilities.

**Table of Contents:**

- Chapter 1: Introduction to AutoCAD
- Chapter 2: Creating Drawings I
- Chapter 3: Working with Drawing Aids and Layers

**Food for Thought** Colleen M. Heflin, Madonna Harrington Meyer, 2025-09-05. While food insecurity among households with children often makes the headlines, a quieter issue that receives much less attention is the food insecurity faced by older adults. In 2023, over nine percent of Americans age sixty and older were food insecure. Without policy intervention, that number is only expected to

grow as the U S population continues to age In Food for Thought social policy scholar Colleen M Heflin and sociologist Madonna Harrington Meyer illuminate the challenges faced by food insecure older adults Through analysis of national data sets and interviews with lower income older adults Heflin and Harrington Meyer describe why many older adults do not have enough money to afford food and other essentials As a result of chronic economic disadvantage food insecure older adults are often forced to make budget trade offs between food and other expenses In these trade offs food typically ranks below housing and energy costs and competes with other household bills such as medical costs transportation and phone and internet coverage While finances play a large role nonfinancial factors such as poor physical cognitive and mental health access to healthy food and transportation challenges also contribute to food insecurity in old age In the face of these difficulties food insecure older adults may go hungry skip meals or eat unhealthy foods to help make ends meet While SNAP and community based programs such as food pantries and home delivered meals are intended to help address the issue of food insecurity they are typically inadequate to address the needs of food insecure older adults SNAP has enrollment and maintenance procedures that are particularly difficult for older adults to navigate pays out an insufficient amount of money to cover food costs and varies greatly by state Availability of community programs varies by municipality often lacks nutritious foods that are complementary to health conditions common among older adults and can be difficult to access due to a lack of reliable transportation disability or cost Heflin and Harrington Meyer advocate for addressing all the issues that increase older adults risk of food insecurity not just financial barriers They suggest updating food insecurity screening tools to include these factors increasing SNAP benefits and income support for older adults and other policies to help combat food insecurity in older adults Food for Thought highlights the increasingly important issue of food insecurity in old age and lays bare the overlooked challenges faced by food insecure older adults
