Odishapolice Manual Rule:

Police Discretion in India Satyajit Mohanty, 2023-08-31 This book is the first empirical study of police discretion in India. Going beyond anecdotal accounts it addresses the issues and concerns of arrest discretion behaviour of police with analysis of available literature internationally testing the validity in the context of police in India and explaining the gap that exists between the legislative intent and field law enforcement. It establishes how extralegal determinants like subculture environment and situations influence arrest discretion as much as legal determinants such as statutes rules manuals and court rulings. It also provides vital explanations on the working of the police system in India. The volume will be of great interest to policymakers police leaders officers of judiciary scholars and researchers of criminology and criminal justice sociology and social anthropology and South Asian studies.

Women in the State of Odisha have played an important role in development however they remain mostly invisible in policy and research. This anthology undertakes a journey from the States rich historical tradition to its present stage of development to locate women's spaces in this process. This book helps in refocusing attention on economic political and social dimensions of women and development. Through discussing areas of health education employment migration and political role of women in decision making institutions the authors suggest that only when women or any oppressed groups gained substantially on these fronts would it have greater dignity and power in society. The absence of analytical work on women's role in the development of the State is increasingly felt. This volume we hope will fill to some extent the intellectual gap in feminist literature. This book is co published with Aakar Books New Delhi.
