[Method of Solving Algebra Equations](#) Wayne R. Matson, Hoover, Dale, 2010-10-28 This book offers one proven solution to a major problem Nationally 90 % of entering college freshmen can't solve equations Obviously something is wrong The Transposing Method of Solving Equations is a far superior method than the traditional Whatever you do to one side you do to the other side Method taught in schools today With The Transposing Method you will be able to solve equations with 1 3 the steps and in significantly less time and you will eliminate a lot of messy scratch work The two methods are compared in the book The book also provides a Diagnostic Test with 10 simple equations 90 % of college students can not even get 2 correct With just a few simple rules you will be able to solve every equation you will encounter in a typical School Algebra and or College Algebra course There is no difference between High School Algebra and College Algebra Algebra is Algebra This book is a Self Teaching Course to help you Solve ALL Equations This book will help you NOW and be your Reference for any FUTURE Math Course I have enjoyed collaborating with Professor Matson the past two years at KSU Dr Matson brings many years of teaching expertise and a wide range of related work experience including the space program into the classroom His students recent results on tests exams were the highest that I have seen in my ten years at this University When Dr Matson noted a deficiency in the current textbook he began authoring new textbooks for entry level students I have been proofing the textbooks and can attest to their rigor and effectiveness in helping other instructors to have the success Dr Matson has achieved Students would make a significant step forward in their mastery of mathematical concepts by being in the classroom with Dr Matson and or obtaining copies of his recently published textbooks Ronald Hoover Mathematics Instructor

Kennesaw State University **Math Scaffolds** Avraam Ziosgas,2021-03-24 This book is about secondary degree equations or quadratic equations It is based on an algorithmic method The method is presented with empty boxes that need to be filled with numbers The first two equations are fully solved as an example Then the equations have gradually more and more blank spaces to be filled by the student The blank spaces are here to help with the structure Repetition is used to create a visual pattern that will be converted to a mental pattern The existing numbers tend to serve as guidelines at the first equations and then they transform to checkpoints or pointers of different or difficult points Gradually the equations become more challenging Chapter 1 Equations are presented fully solved and then gradually more blank spaces are introduced Chapter 2 Students can solve equations with coefficient a of the second degree term different than 1 Chapter 3 Equations without solutions are introduced Chapter 4 Equations are repeated and the scaffold is getting more discreet Chapter 5 Equations are repeated and the scaffold is disappearing leaving only the basic formulas in place Chapter 6 This chapter has all the calculations needed for all the equations of the book Additions subtractions multiplications squares and roots are listed here to be referenced if needed Recommendation Read the first fully solved equations with a critical eye Color with colored markers the coefficients a b and c and track them in the solved equations Students with special educational needs Students should work on this material with the help of an assistant familiar with the material Let the students find patterns in the first solved equations Support them but also let them guess or speculate for the answers even if they are not sure Goals Learn to solve quadratic equations Build confidence in the student s abilities Overcome the psychological barrier of low performance Give the students the opportunity to feel small successes Who should use this book Students homeschooled Students who missed the related material at school Students with special education needs supported by a qualified supporter Teachers who want to differentiate their lesson s structure Teachers can use the book for revisions or as material for substitute teachers Substitute teachers for short or longer periods of time Calculus Equations & Answers Pamphlet Master,2014-08-15 This
