intellectual life of America's most cosmopolitan city. Surmounting a series of social and institutional obstacles to gain access to Columbia University, women played a key role in its evolution from a small Protestant male dominated school into a renowned research university. At the same time, their struggles challenged prevailing ideas about masculinity, femininity, and sexual identity, questioned accepted views about ethnicity, race, and rights, and thereby laid the foundation for what we now know as gender. From Lillie Devereux Blake Annie Nathan Meyer and Virginia Crocheron Gildersleeve in the first generation through Ruth Benedict, Margaret Mead, and Zora Neale Hurston in the second to Kate Millett, Gerda Lerner, and Ruth Bader Ginsburg in the third, the women of Columbia shook the world. *Publishers' circular and booksellers' record*, 1870
