## Offas Dyke Path Collectif:

Bred of Heaven Jasper Rees, 2011-08-04 Jasper Rees has always wanted to be Welsh But despite Welsh grandparents and a Welsh surname he is an Englishman by birth upbringing and temperament In this singular hilarious love letter to a glorious country so often misunderstood Rees sets out to achieve his goal of becoming a Welshman by learning to sing play work worship think and above all speak like one On the way he meets monks tenors and politicians and tries his hand at rugby and lambing all the while weaving together his personal story with Wales s rich history Culminating in a nail biting test of Rees s Welsh speaking skill at the National Eisteddfod this exuberant journey of self discovery celebrates the importance of national identity and the joy of belonging

Reanimating Regions James Riding, Martin Jones, 2017-05-12 Writing regions undertaking a regional study was once a standard form of geographic communication and critique This was until the quantitative revolution in the middle of the previous century and more definitively the critical turn in human geography towards the end of the twentieth century From then on writing regions as they were experienced phenomenologically or arguing culturally historically and politically with regions was deemed to be old fashioned Yet the region is and always will be a central geographical concept and thinking about regions can tell us a lot about the history of the discipline called geography Despite taking up an identifiable place within the geographical imagination in scholarship and beyond region remains a relatively forgotten under used and in part under theorised term Reanimating Regions marks the continued reinvigoration of a set of disciplinary debates surrounding regions the regional and regional geography Across 18 chapters from international interdisciplinary scholars this book writes and performs region as a temporary permanence something held stable not fixed and absolute at different points in time for different purposes There is as this expansive volume outlines no single reading of a region Reanimating Regions collectively rebalances the region within geography and geographical thought In renewing the geography of regions as not only a site of investigation but also as an analytical framework through which to write the world what emerges is a powerful reworking of the geographic imagination Read against one another the chapters weave together timely commentaries on region and regions across the globe with a particular emphasis upon the regional as played out in the United Kingdom and regional worlds both within and beyond Europe offering chapters from Africa and South America Addressing both the political and the cultural this volume responds to the need for a consolidated and considered reflection on region the regional and regional geography speaking directly to broader intellectual concerns with performance aesthetics identity mobilities the environment and the body

include the society s Annual report 45th      The Welsh Way Dan Evans,Kieron Smith,Huw Williams,2021-09-01 This book argues for a new Welsh Way one that is truly radical and transformational A call for a political engagement that will create real opportunity for change Neoliberalism has firmly taken hold in Wales The clear red water is darkening The wounds of poverty inequality and disengagement far from being healed have worsened Child poverty has reached epidemic levels the worst in the UK Educational attainment remains stubbornly low particularly in deprived communities Prison population rates are among the highest in Europe Unemployment remains stubbornly high House prices are rising with the private rented sector lining the pockets of an ever increasing number of private landlords Minority groups are consistently marginalised All this is not to mention the devastatingly disproportionate impact of the coronavirus pandemic on working class communities The Welsh Way interrogates neoliberalism s grasp on Welsh life It challenges the lazy claims about the successes of devolution fabricated by Welsh politicians and regurgitated within a tepid attenuated public sphere These wide ranging essays examine the manifold ways in which neoliberalism now permeates all areas of Welsh culture politics and society They also look to a wider world to the global trends and tendencies that have given shape to Welsh life today Together they encourage us to imagine and demand another Welsh future      *Warfare, Raiding and Defence in Early Medieval Britain* Erik Grigg,2018-05-21 Warfare Raiding and Defence in early medieval Britain is an examination of warfare in the period AD400 850 often called the Dark Ages which is roughly the period between the end of Roman rule and the arrival of large Viking armies It uses written sources archaeological evidence and surviving features in the landscape to analyse the nature of warfare in those days paying particular attention to the large defensive earthworks typical of the period Luckily these earthworks survive long after the warriors have turned to dust their locations in the landscape are mute witness to the nature of early medieval warfare This period helped forge and mould the nations of modern Britain This book shows that raiding was the driving force behind the political cultural and linguistic changes that affected post Roman Britain and provides a picture of how raids and counter raiding measures worked in practice
