## **Offas Dyke Path Collectif:**

Bred of Heaven Jasper Rees, 2011-08-04 Jasper Rees has always wanted to be Welsh But despite Welsh grandparents and a Welsh surname he is an Englishman by birth upbringing and temperament In this singular hilarious love letter to a glorious country so often misunderstood Rees sets out to achieve his goal of becoming a Welshman by learning to sing play work worship think and above all speak like one On the way he meets monks tenors and politicians and tries his hand at rugby and lambing all the while weaving together his personal story with Wales s rich history Culminating in a nail biting test of Rees s Welsh speaking skill at the National Eisteddfod this exuberant journey of self discovery celebrates the importance of national identity and the joy of belonging Reanimating Regions James Riding, Martin Jones, 2017-05-12 Writing regions

undertaking a regional study was once a standard form of geographic communication and critique This was until the quantitative revolution in the middle of the previous century and more definitively the critical turn in human geography towards the end of the twentieth century From then on writing regions as they were experienced phenomenologically or arguing culturally historically and politically with regions was deemed to be old fashioned Yet the region is and always will be a central geographical concept and thinking about regions can tell us a lot about the history of the discipline called geography Despite taking up an identifiable place within the geographical imagination in scholarship and beyond region remains a relatively forgotten under used and in part under theorised term Reanimating Regions marks the continued reinvigoration of a set of disciplinary debates surrounding regions the regional and regional geography Across 18 chapters from international interdisciplinary scholars this book writes and performs region as a temporary permanence something held stable not fixed and absolute at different points in time for different purposes There is as this expansive volume outlines no single reading of a region Reanimating Regions collectively rebalances the region within geography and geographical thought In renewing the geography of regions as not only a site of investigation but also as an analytical framework through which to write the world what emerges is a powerful reworking of the geographic imagination Read against one another the chapters weave together timely commentaries on region and regions across the globe with a particular emphasis upon the regional as played out in the United Kingdom and regional worlds both within and beyond Europe offering chapters from Africa and South America Addressing both the political and the cultural this volume responds to the need for a consolidated and considered reflection on region the regional and regional geography speaking directly to broader intellectual concerns with performance aesthetics identity mobilities the environment and the body **Chambers Encyclopedic English**

**Poetry in the Clinic** Alan Bleakley, Shane Neilson, 2021-12-30 This book explores previously unexamined overlaps between the poetic imagination and the medical mind It shows how appreciation of poetry can help us to engage with medicine in more intense ways based on de familiarising old habits and bringing poetic forms of close reading to the clinic Bleakley and Neilson carry out an extensive critical examination of the well established practices of narrative medicine to show that non narrative lyrical poetry does different kind of work previously unexamined such as place eclipsing time They articulate a groundbreaking lyrical medicine that promotes aesthetic ethical and political practices as well as noting the often concealed metaphor cache of biomedicine Demonstrating that ambiguity is a key resource in both poetry and medicine the authors anatomise poetic and medical practices as forms of extended and situated cognition grounded in close readings of singular contexts They illustrate structural correspondences between poetic diction and clinical thinking such as use of sound and metaphor This provocative examination of the meaningful overlap between poetic and clinical work is an essential read for researchers and practitioners interested in extending the reach of medical and health humanities narrative medicine medical education and English literature
