**Who Wrote This?** Naomi S. Baron, 2023-09-12 Would you read this book if a computer wrote it Would you even know And why would it matter Today's eerily impressive artificial intelligence writing tools present us with a crucial challenge As writers do we unthinkingly adopt AI's time saving advantages or do we stop to weigh what we gain and lose when heeding its siren call To understand how AI is redefining what it means to write and think linguist and educator Naomi S Baron leads us on a journey connecting the dots between human literacy and today's technology From nineteenth century lessons in composition to mathematician Alan Turing's work creating a machine for deciphering war time messages to contemporary engines like ChatGPT Baron gives readers a spirited overview of the emergence of both literacy and AI and a glimpse of their possible future As the technology becomes increasingly sophisticated and fluent it's tempting to take the easy way out and let AI do the work for us Baron cautions that such efficiency isn't always in our interest As AI plies us with suggestions or full blown text we risk losing not just our technical skills but the power of writing as a springboard for personal reflection and unique expression Funny informed and conversational Who Wrote This urges us as individuals and as communities to make conscious choices about the extent to which we collaborate with AI The technology is here to stay Baron shows us how to work with AI and how to spot where it risks diminishing the valuable cognitive and social benefits of being literate

**Resolved** Robert Litan, 2020-10-06 Adopting a simple education reform to restore civil discourse and transform American society In this era of extreme political polarization it's tempting to believe nothing can be done to heal a nation that is so obviously divided and led by dysfunctional politicians But there is a relatively simple and powerful way to begin the healing and at the same time prepare the next generations of leaders for the rigorous demands of a constantly changing economy and society The solution offered by this intriguing book is for schools across the country to focus on developing in students the skills of successful debaters These are the skills so clearly lacking in contemporary society of listening and persuading through civil discourse backed by fact based evidence and reason Resolved explains how one simple educational reform can help address the nation's political divide and at the same time help ensure that today's young people will actually enjoy learning and thus will have the necessary skills to lead productive and economically rewarding lives The book offers practical ideas about a positive future for parents educators state legislators

**What the Signs Say** Shonna Trinch,Edward Snajdr,2020-06-15 Although we may not think we notice them storefronts and their signage are meaningful and the impact they have on people is significant What the Signs Say argues that the public language of storefronts is a key component to the creation of the place known as Brooklyn New York Using a sample of more than two thousand storefronts and over a decade of ethnographic observation and interviews the study charts two very different types of local Brooklyn retail signage The unique and consistent features of many words large lettering and repetition that make up Old School signage both mark and produce an inclusive and open place In contrast the linguistic elements of New School signage such as brevity and wordplay signal not only the arrival of gentrification but also the remaking of Brooklyn as distinctive and exclusive Shonna Trinch and Edward Snajdr a sociolinguist and an anthropologist respectively show how the beliefs and ideas that people take as truths about language and its speakers are deployed in these different sign types They also present in depth ethnographic case studies that reveal how gentrification and corporate redevelopment in Brooklyn are intimately connected to public communication literacy practices the transformation of motherhood and gender roles notions of historical preservation urban planning and systems of privilege Far from peripheral or irrelevant shop signs say loud and clear that language displayed in public always matters
