Old Buildings New Designs Architectural Transformations Charles Bloszies:

Old Buildings New Designs Charles Bloszies, 2013-07-02 Increasingly architects are hired to design new work for existing structures Whether for reasons of preservation sustainability or cost effectiveness the movement to reuse buildings presents a variety of design challenges and opportunities Old Buildings New Designs is an Architecture Brief devoted to working within a given architectural fabric from the technical issues that arise from aging construction to the controversy generated by the various project stakeholders to the unique aesthetic possibilities created through the juxtaposition of old and new

Old Buildings, New Designs Charles Bloszies, 2012 19 eksempler p genbrug af gamle bygninger med tilbygninger i nyt arkitektonisk design *Writing About Architecture* Alexandra Lange, 2012-03-20 Extraordinary architecture addresses so much more than mere practical considerations It inspires and provokes while creating a seamless experience of the physical world for its users It is the rare writer that can frame the discussion of a building in a way that allows the reader to see it with new eyes Writing About Architecture is a handbook on writing effectively and critically about buildings and cities Each chapter opens with a reprint of a significant essay written by a renowned architecture critic followed by a close reading and discussion of the writer s strategies Lange offers her own analysis using contemporary examples as well as a checklist of questions at the end of each chapter to help guide the writer This important addition to the Architecture Briefs series is based on the author s design writing courses at New York University and the School of Visual Arts Lange also writes a popular online column for Design Observer and has written for Dwell Metropolis New York magazine and The New York Times Writing About Architecture includes analysis of critical writings by Ada Louise Huxtable Lewis Mumford Herbert Muschamp Michael Sorkin Charles Moore Frederick Law Olmsted and Jane Jacobs Architects covered include Marcel Breuer Diller Scofidio Renfro Field Operations Norman Foster Frank Gehry Frederick Law Olmsted SOM Louis Sullivan and Frank Lloyd Wright Sustainable Design David Bergman, 2013-07-02 Written for students and practitioners in the fields of architecture and interior design our new Architecture Brief Sustainable Design provides a concise overview of all the techniques available for reducing the energy footprint of structures and spaces With clear simple language and a practical can do approach author David Bergman covers everything from the profession s ethical responsibility to design structures and spaces that sustain our natural resources to specific considerations such as rainwater harvesting graywater recycling passive heating techniques solar orientation green roofs wind energy daylighting indoor air quality material evaluation and specification and how to work with green building certification programs **The Interiors Theory Primer** William Mangold, 2025-07-31 In a world where life is increasingly defined by the spaces we inhabit understanding interiors is essential to understanding ourselves The Interiors Theory Primer maps the intellectual terrain of interior design and spatial experience introducing readers to key concepts that shape how people occupy interior spaces Organized into three parts this book begins with foundational concerns such as place identity materiality and atmosphere and then examines the boundaries

and expertise of the discipline before turning to critical and emerging topics like biophilia virtuality and social justice Each chapter presents a focused literature review of a major theme in interiors theory supported by key design precedents and suggestions for further reading Drawing on a wide range of scholarship The Interiors Theory Primer offers a coherent framework for understanding interiors as a distinct interdisciplinary field deeply embedded in the human condition Accessible to students useful to professionals and provocative for scholars The Interiors Theory Primer argues that the designed environments in which we live work and gather deserve greater attention not only for their aesthetic and functional qualities but also for their powerful role in shaping contemporary life

Material Strategies Blaine Brownell, 2013-07-02 Blaine Brownell's best selling Transmaterial series has introduced designers to hundreds of emergent materials that have the potential to transform our built environment In our new Architecture Brief Material Strategies Brownell shows architects how creative applications of these materials achieve such transformations Chapters based on fundamental material categories examine historical precedents current opportunities and future environmental challenges Case studies featuring detailed illustrations showcase pioneering buildings from today's most forward thinking architectural firms

Urban Composition Mark C. Childs, 2013-07-02 Cities and towns are among humanity's greatest achievements yet no single individual or organization creates them The buildings streets and gardens of even a small town embody substantial investments of money natural resources and political capital Much more than the sum of its parts a settlement's vitality comes from its collective composition Sometimes the cities and towns that emerge are glorious places but too frequently they have only fragments of greatness or are soulless and environmentally unhealthy Our new Architecture Brief Urban Composition shows architects planners artists and engineers of individual projects how they can best fulfill their public trust to help make meaningful urban places Each chapter contains a set of design queries followed by a discussion illustrations and references for further research This accessible primer on urban design provides guidelines for designing buildings or plans for large cities or small towns Urban Composition showcases projects across the United States and internationally in metropolitan areas such as Chicago Seattle and London and small communities such as Marfa Texas

Interactive Architecture Michael Fox, 2016-06-07 Recent technological developments in biology computation cybernetics engineering industrial design materials and robotics allow architecture to evolve beyond static functionality and become an active participant with the capacity to perceive react to and connect with humans and the natural world The first process based guide by Michael Fox and Miles Kemp introduced interactive architecture in 2009 and the past few years have seen its prototypical potential unleashed manifest in the eighteen inventive projects featured in this follow up the latest in our Architecture Briefs series Interactive Architecture Adaptive World illustrates how structures can process information make observations and utilize tools to translate natural systems and create seamlessly integrated environments from data driven light installations responsive sculptures and performative materials to smart highways dynamic spaces kinetic facades and

adaptive buildings Ambitious projects from around the world including Abu Dhabi Indianapolis Los Angeles New York City San Francisco Frankfurt London Paris Sochi and Zurich are illuminated by photographs diagrams and renderings

Actualiser le patrimoine par l'architecture contemporaine Alexandra Georgescu Paquin, 2014-10-22T00:00:00-04:00 La cohabitation entre le nouveau et l'ancien est devenu un enjeu en architecture au XXI^e siècle. L'objet relique, le patrimoine, se transforme en un projet dynamique auquel on peut insérer des éléments d'architecture contemporaine. L'auteur compose ce phénomène d'actualisation pour comprendre comment celui-ci contribue à reformuler le sens des sites patrimoniaux métamorphosés en analysant principalement des cas espagnols.

Architecture and Urban Redevelopment in Over-the-Rhine Jordan B. Lewis, 2013 Cincinnati Ohio's Brewery District is located in the northern half of the historical urban neighborhood of Over the Rhine (OTR). Because of the recent increased interest in urban living and the City of Cincinnati's and corporate leaders' recent interest in redeveloping the southern half of OTR, the Brewery District is in the prime position of experiencing the next wave of significant redevelopment and revitalization. The Brewery District Community Urban Redevelopment Corporation (BDCURC) has procured the responsibilities of producing master plan strategies to initiate, implement, and direct redevelopment in the Brewery District as they envision its repopulation and new business investment. This thesis analyzes and critiques the BDCURC's 2011 Brewery District Master Plan, Master Plan, and its relationship to other redevelopment occurring in the city and OTR, as well as the city's future streetcar system. Additionally, the Master Plan's embedded design strategies and implications are analyzed and critiqued. The criticisms establish the foundation for this thesis proposal of a new catalyst project that situates itself within the 2011 Brewery District Master Plan but provides a stronger application of the catalytic development approach the BDCURC is utilizing by creating a clear, distinct node of catalytic activity through the integration of the adaptive reuse of a visually prominent historic brewery building, new development, and a streetcar stop. The catalyst project's location facilitates and encourages public accessibility and use of the historic brewery building and the site it occupies to ultimately celebrate the Brewery District's heritage, activate nearby residential zones, and spur adjacent business investment and real estate development. Facing the design questions associated with engaging a past and present context and integrating new with old, the design seeks to utilize both restrained and referential contrast categories identified by Charles Bloos in *Old Buildings, New Designs: Architectural Transformations* to respect and celebrate the existing structure. Utilizing methods of respectful contrast through new architectural interventions and design elements that serve functional and programmatic roles to facilitate the reuse of and accessibility to historical structures, an urban neighborhood's historical context can be celebrated and leveraged to induce business investment and real estate development.

The Designers of Our Buildings (Classic Reprint) Leslie Cope Cornford, 2016-08-15 Excerpt from *The Designers of Our Buildings*: If he does think about it at all, his thoughts are guided by his eye to the staring boards of the various contractors, and he is satisfied with the nebulous notion that each is doing his bit for the amenities of the edifice. The very word architect does not

occur to him I know I know more namely that if you asked any sixty men lunching at an ordinary London club to write down the names of six distinguished architects not more than two or three could do it About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *The Architect and Builder's Miscellany, Or Pocket Library; Containing Original Picturesque Designs in Architecture, Etc* Charles MIDDLETON (Architect.),1799 **The Architect and Builder's Miscellany, Or, Pocket Library** Charles Middleton,1812
