Of Women Born Adrienne Cecile Rich, 1977 Motherhood Andrea O'Reilly, Marie Porter, Patricia Short, 2005-08-25 In feminism the institution of mothering motherhood has been a highly contested area in how it relates to the oppression of women As Adrienne Rich articulated in her classic 1976 book *Of Woman Born* Motherhood as Experience and Institution although motherhood as an institution is a male defined site of oppression women's own experiences of mothering can nonetheless be a source of power This volume examines four locations wherein motherhood is simultaneously experienced as a site of oppression and of power embodiment representation practice and separation Motherhood Power and Oppression includes psychological historical sociological literary and cultural approaches to inquiry and a wide range of disciplinary perspectives qualitative quantitative corporeal legal religious fictional mythological dramatic and action research This rich collection not only covers a wide range of subject matter but also illustrates ways of doing feminist research and practice

Hull, Peter Charles Hoffer, 2010 This up to date history of Roe v Wade covers the complete social and legal context of the case that remains the touchstone for America's culture wars **Feminist Ethics** Claudia Card, 1991 Fifteen essays address subjects ranging from the history of feminist ethics to the logic of pluralist feminism and present feminist perspectives on such topics as terrorism bitterness women trusting other women and survival and ethics Paper edition unseen 14 95 Annotation copyrighted by Book News Inc Portland OR **Queer Kinship on the Edge? Families of Choice in Poland** Joanna Mizielińska, 2022-05-18 Queer Kinship on the Edge Families of Choice in Poland explores ways in which queer families from Central and Eastern Europe complicate the mainstream picture of queer kinship and families researched in the Anglo American contexts The book presents findings from under represented localities as a starting point to query some of the expectations about queer kinship and to provide insights on the scale and nature of queer kinship in diverse geopolitical locations and the complexities of lived experiences of queer families Drawing on a rich qualitative multi method study to address the gap in queer kinship studies which tend to exclude Polish or wider Central and Eastern perspectives it offers a multi dimensional picture of families of choice improving sensitivity towards differences in queer kinship studies Through case studies and interviews with diverse members of queer families i e queer parents their children and their families of origin parents and siblings the book looks at queer domesticity practices of care defining and displaying families queer parenthood familial homophobia and interpersonal relationships through the life course This study is suitable for those interested in LGBT studies sexuality studies kinship and Eastern European studies All American Women Johnnetta B. Cole, 1986 Based on the assumption that all women share a common female experience much of the twentieth century feminist theory and writing overlooks the lives of the majority of women in the world In All American Women Johnnetta Cole corrects this bias by showing the vast range of attitudes circumstances hopes fears and struggles of a cross section of women in the United States today The only book of its kind this much needed work contains writings from authors in numerous fields including Carol P Christ Angela Y Davis Yvonne Duffy Geraldine Ferrarom Elaine H Kim Audre

Lorde and many others which probe five major aspects of women's lives: work, families, sexuality, and reproduction, religion, and politics. While identifying many of the bonds that unite women, Cole persuasively argues that racial, ethnic, class, and many other differences cannot be wiped away by the notion of sisterhood. Insightful and necessary, this volume provides a solid foundation for understanding the diverse strands of female experience in America today.

Publisher's description Willa Cather Sharon O'Brien, 1997 This is the first biography of Willa Cather to explore thoroughly the connections between her artistic and her psychological growth. O'Brien makes full use of biographical and literary materials: Cather's personal and professional correspondence, photographs, and the early short stories, as well as the major fiction. Dealing openly and seriously with Cather's lesbianism, the book explores the importance of female friendships in Cather's life and work and assesses the impact that her need to conceal her sexual identity had on the creative process. Concentrating on Cather's childhood, adolescence, young womanhood, and lengthy apprenticeship, O'Brien paints the portrait of the artist as a young woman and reveals the complex interplay between Willa Cather's life and her work. In a new Preface, O'Brien sets the book in its historical context.

Biographical Supplement and Index Harriet Sigerman, 1994 The first 10 volumes of *The Young Oxford History of Women in the United States* trace the path women traveled in the past four centuries and tell the stories of individuals, famous and unknown, who pushed forward the cause of women's rights. This *Biographical Supplement and Index* rounds out the series with the personal histories of many of these women. Some are well known at least by name and deed, but there are many things that will surprise, fascinate, and inspire the reader. Maya Angelou is acclaimed for her poetry and other writings, but it is a delightful surprise to learn that she was the first woman streetcar conductor in San Francisco. Molly Pitcher is a familiar American Revolution heroine, but it is interesting to read that she was really Mary McCauley, a rural charwoman awarded an annual pension by the Pennsylvania legislature for her service during the war. Each biography is a snapshot of the woman: what she accomplished, how she lived, and what she believed.

Bella Abzug, feminist activist since the early 1970s, is followed by Abigail Adams and a discussion of the role of women in the founding of our country, followed by Jane Addams, social reformer and founder of Hull House. These women lived in different times and used different methods to wield influence, but in the *Biographical Supplement and Index*, the contributions of talented and admirable women throughout all of our history become strikingly clear. *The Young Oxford History of Women in the United States* is an extraordinary achievement in scope, scholarship, and accessibility. With the publication of the final volume and the completion of the series, an invaluable resource is available for young adults and all who treasure our distinct and remarkable past.
