Section 11.1

OFAC Policy

I. PURPOSE

The Office of Foreign Assets Control (OFAC) of the Department of the Treasury administers and oversees a series of laws that impose economic sanctions against hostile targets to further U.S. foreign policy and national security objectives. OFAC is responsible for promulgating, developing, and administering the sanctions for the Treasury under eight federal statutes. All of the financial institution regulatory agencies cooperate in ensuring financial institution compliance with the OFAC regulations. The OFAC laws and regulations promote national and international security by requiring asset freezing of oppressive governments, international terrorists, narcotic traffickers, and other specially designated persons.

The purpose of this policy is to ensure compliance with the OFAC regulations by identifying individuals who are on the OFAC Specially Designated Nationals (SDN) and Blocked Persons list so that we and our partner banks do not engage in business or facilitate any credit card account transactions with them.

II. OBJECTIVES

The objectives of this policy are to:

1. Identify by comparison to the OFAC SDN and Blocked Persons list a "true match" of any individual who:
 - a. applies for a new credit card account issued by our partner banks; or
 - b. is a current customer with a credit card account issued by one of our partner banks and serviced by Bluestem Brands, Inc ("Bluestem")
2. To verify that a true match exists in the event of a possible match.
3. If a true match exists, decline the credit card applicant, or if account has already been approved, block and close the account.
4. Report any true matches to our partner bank to be reported to the OFAC.

III. MATCHING PROCESS

New Credit Card Applications

All individuals applying for a new credit card account issued by our partner banks must be compared to the OFAC SDN for any true matches before application approval. This comparison process is completed through the Equifax product, OFAC Alert. OFAC Alert compares individual
