*Fast Politics* Laura Pérez

Rastrilla,Pablo Sapag M.,Armando Recio García,2023-10-17 The goal of this book is to show the role of TikTok as a tool for political purposes To this end the authors analyse the messages posted on this social medium by political figures and institutions such as politicians and political parties their impact on political landscapes as well as the transformation of political communication techniques in order to suit the platform s features In the last two years the exponential growth of TikTok has led an increasing number of politicians and institutions to incorporate it into their communication strategies The platform displays some very different features from other social media that determine the way in which the content is presented In addition it manages to reach an audience that normally does not access or share political messages Within this context the volume pursues two main objectives First to examine how the communication techniques and the peculiarities of this social medium where short videos with actors in informal attitudes prevail affect the political message A second objective

is to analyse the influence of the messages distributed through TikTok that redefine political scenarios and of the relationships of politicians and parties with voters. The core of the book comprises case studies that are organised into three parts with nine chapters in all. The authors are scholars and practitioners of political communication with diverse geographical representation who approach the topics from a range of methodological perspectives. The first part addresses the state of the art and the influence of TikTok features on the way political communication is performed. The second part discusses the influence of TikTok on electoral scenarios and political culture in India, Bangladesh, the United States and Ecuador. Finally in the third part TikTok is analysed as an instrument for promoting far right politicians and parties in Europe as in the case of Matteo Salvini in Italy and AfD in Germany and Vox in Spain. The volume is oriented to both scholars and communication professionals such as journalists, communication consultants and speechwriters who want to become familiar with the platform, learn about its political impact or wish to deepen their understanding of transformations in communication techniques and their adaptation to this growing social medium. Chapter 2, *The Moving Body as the Articulator Meme and Affective Link in Political Communication* on TikTok is available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](http://springer.com)

A full color interdisciplinary exploration of how media and mass communication shape society and how students can take control of their media futures. Today's students have a world of knowledge at their fingertips and no longer need books to list names and dates. What they need is the story of how everything fits together and the critical tools to take charge of their place within that story. David T. Z. Mindich's *The Mediated World* charts the story of media as it has shaped human life and as it infuses every aspect of our modern existence. Mindich's engaging narrative style focuses on concepts and real world contexts to promote the media literacy students need to understand their personal relationships with media. Empowered as media consumers, creators and curators, students realize their responsibility to work within the vast world of media to create more positive and productive futures. The second edition of this text brings historical media and overarching themes to life for students. Each chapter opens with a contemporary vignette that meets students in the current moment before encouraging them to consider the past.
