**c't Working with AI** c't-Redaktion, 2024-01-24 The special issue of c't KI Praxis provides tests and practical instructions for working with chatbots. It explains why language models make mistakes and how they can be minimised. This not only helps when you send questions and orders to one of the chatbots offered online. If you do not want to or are not allowed to use the cloud services for data protection reasons for example you can also set up your own voice AI. The c't editorial team explains where to find a suitable voice model, how to host it locally and which service providers can host it. The fact that generative AI is becoming increasingly productive harbours both opportunities and risks. Suitable rules for the use of AI in schools, training and at work help to exploit opportunities and minimise risks.

**Dynamics of Tradition** Lotte Tarkka, 2003 This volume shows the reflective nature of the study of folklore. The dynamics of creating histories, nations, ideologies and identities are treated in various cultural arenas and historical contexts, ranging from academic, national and literate cultures to oral traditions. The reader is invited to witness the very creation of ethnographic data in topical studies based on fieldwork. From the ethnographic encounter with folk religion, the focus shifts to mythological traditions and the study of mythology. The section dedicated to epic studies offers a comparative view on epic poetry in various cultural settings. The genre of oral or oral-derived epic studies is a textual arena in which various cultural and historical agents, ideologies and traditions meet in dialogue or in conflict. The volume concludes with four texts inspired by Siikala's studies in the cognitive and affective processes involved in narration and system of belief. Although historically and socially conditioned, the dynamics of tradition is the dynamics of the human mind in all of its faculties.
