other programs tend to subtly denigrate men as perpetrators and focus on stopping the problematic behavior Building a Better Man tries to understand the external forces that impinge on the developmental experiences of boys men and broadens the scope of inquiry into their behavior by reviewing a range of external societal forces that contribute to the problems Clinicians and group leaders will find that the approach laid out in Building a Better Man leaves clients feeling understood more than judged which provides a different motivation for change and can set treatment on an entirely different and infinitely more productive path
