Joycean Unions R. Brandon Kershner, Tekla Mecsnober Tekla Mecsnober, 2013 This exciting new volume presents recent research by internationally recognised Joyce scholars from Europe and North America. Entitled *Joycean Unions*, Post Millennial Essays from East to West, it pays particular attention to contemporary Eastern and Western European perspectives on the immensely influential work of the Irish writer James Joyce. 1882-1941: The essays collected in this volume uncover various European sources of inspiration for Joyce's early aesthetic theories for the Sirens, Cyclops, Circe and Eumaeus episodes of his modernist masterwork *Ulysses* (1922) and for his last tour de force *Finnegans Wake* (1939). They present inspiring new ways of reading Joyce's work, re-investigate the fascinating phenomenon of literary error and review aspects of Joyce's varied afterlife in Ireland and Eastern Europe. The book will be of interest to scholars, students and the general Audience interested in English literature, Modernism, European Studies, Irish Studies and of course the works of James Joyce.
