Numicon Maths Program Teaching Guide:

The Teacher's Guide to Understanding and Supporting Children with Literacy Difficulties In The Classroom

Valerie Muter,2024-09-19 Why do some children experience literacy difficulties How can I identify a child with reading and writing challenges What is the best way to support them in a classroom context 1 in 8 children will experience some kind of reading difficulty and while you as a class teacher are not expected to formally assess children or deliver specialist interventions a good understanding of literacy challenges is crucial for providing optimum educational support This guide demystifies and disentangles different types of literacy difficulty and explains how they can impact the child's day to day classroom functioning and general school life Chapters include how to identify children that are struggling how to work with SpLD teachers and parents so they can be maximally supported the co occurrence of literacy difficulties with other learning difficulties such as with maths and attention problems alongside practical tips to support each child's learning Strongly grounded in up to date theory and research this is a perfect companion for classroom teachers of all age levels

Numicon Firm Foundations Revised Edition Tony Wing,Rachel Hussain,Romey Tacon,Ruth Atkinson,2021-05-06 [Specific](#)

[Learning Differences, What Teachers Need to Know \(Second Edition\)](#) Diana Hudson,2024-04-18 Winner of the 2024 Teach Secondary Award for SEND resources The updated straight talking and accessible guide is ideal for teachers teaching assistants SENCOs senior leadership and even home schooling parents who want to know more about supporting students with Learning Differences Highlighting some of the more commonly encountered Specific Learning Differences SpLD's expert Diana Hudson concisely describes the signs of those that are most commonly encountered in the classroom Covering dyslexia dyspraxia dyscalculia dysgraphia autism spectrum condition ADHD OCD and featuring brand new chapters on Pathological Demand Avoidance PDA Sensory Processing Disorder SPD and tics and Tourette Syndrome this book covers all the information you need whilst reminding us that all neurodivergent children are individuals and have different qualities Diana provides an overview of each identity and evaluates how you may need to adapt your levels of support in the classroom as well as practical suggestions for modifying teaching materials and methods to make learning enjoyable effective and accessible for all students There are also dedicated chapters on helping students with SpLD's to improve their organisation and develop effective revision skills and exam techniques

[International Handbook of Mathematical Learning Difficulties](#)

Annemarie Fritz,Vitor Gerald Haase,Pekka Räsänen,2019-01-30 This comprehensive volume provides teachers researchers and education professionals with cutting edge knowledge developed in the last decades by the educational behavioural and neurosciences integrating cognitive developmental and socioeconomic approaches to deal with the problems children face in learning mathematics The neurocognitive mechanisms and the cognitive processes underlying acquisition of arithmetic abilities and their significance for education have been the subject of intense research in the last few decades but the most part of this research has been conducted in non applied settings and there's still a deep discrepancy between the level of

scientific knowledge and its implementation into actual educational settings Now it's time to bring the results from the laboratory to the classroom Apart from bringing the theoretical discussions to educational settings the volume presents a wide range of methods for early detection of children with risks in mathematics learning and strategies to develop effective interventions based on innovative cognitive test instruments It also provides insights to translate research knowledge into public policies in order to address socioeconomic issues And it does so from an international perspective dedicating a whole section to the cultural diversity of mathematics learning difficulties in different parts of the world All of this makes the International Handbook of Mathematical Learning Difficulties an essential tool for those involved in the daily struggle to prepare the future generations to succeed in the global knowledge society

The SENCO Survival Guide Sylvia Edwards,2010-12-14 Are you confused about Special Education Needs SEN and Learning Difficulties and Disabilities LDD Are you unclear about how to identify and address the needs of your pupils in the context of the new Inclusion Development Programme Do you need support to develop a great system that links together recent initiatives and government legislation This book is intended for SENCOs and other staff working from the Foundation stage to Key Stage 4 with management responsibility for SEN LDD systems in schools The book will explore recent initiatives and terminology in the context of the Inclusion Development Programme and Narrowing the Gap examine the implications for school policy and practice link together related SEN LDD development help schools to develop co ordinated systems that enable all learners with SEN LDD to meet their potential and aspirations *Understanding Dyscalculia and Numeracy Difficulties* Jane Emerson,Patricia Babtie,2015-07-21 A complete accessible guide to understanding dyscalculia and low numeracy this book covers number sense and how the brain deals with numbers assessment planning intervention what to teach how to teach it and how parents can help Essential for parents teachers and education professionals working with a child with numerical difficulties

Resources in Education ,1980 **Teaching and Learning to Unlock Social Mobility for Every Child** Sonia Blandford,Stefan Burkey,2023-04-10 Teaching and Learning to Unlock Social Mobility for Every Child is a topical and insightful text that guides readers through evidence based practice that will improve outcomes for all involved in education increasing social mobility and inclusion in every sense In the past 30 years how children and young people learn has changed considerably as challenges of social mobility become more apparent Cultural and social economic disadvantage is evident as is the need to focus on mutuality in education whereby all children and young people are valued regardless of their background challenges or needs In this context Teaching and Learning to Unlock Social Mobility for Every Child is the first work to capture and clearly explain practical teaching and learning approaches that can be used in any school It circles around the creativity and technology of pedagogy exploring an educational agenda that is genuinely rooted in social mobility for all children Written accessibly and full of case studies this book is intended to guide practitioners and stakeholders at all levels of education from school leaders to researchers students and teachers It will help them to impart the skills and

capacities which children and young people require to drive their future social mobility and address the challenges they will face on their own terms *Numicon: Breaking Barriers Teaching Handbook* Tony Wing, Romey Tacon, Ruth Atkinson, 2015-05-11

Numicon is a proven approach for teaching and learning maths that builds deep understanding and engagement. Through active investigation with problem solving at its heart and supported by structured apparatus children reason and communicate mathematically with confidence. *Breaking Barriers* is specifically designed for teaching children who experience particular difficulties learning maths including those with special educational needs and disabilities. The Teaching Handbook provides a coherent teaching progression with support for planning and assessment. A Teaching Guide containing expert advice on making number ideas accessible and addressing children's underlying difficulties, easy to follow activities with guidance on the smaller steps some children may need to take, suggestions for extension, helpful illustrations that demonstrate how apparatus can be used to support children's reasoning ideas for putting the activities into context and links to the Numicon Number Pattern and Calculating and Geometry, Measurement and Statistics materials *Numicon: Geometry, Measurement and Statistics 2* Tony Wing, Sue Lowndes, Simon d'Angelo, Andrew Jeffrey, Elizabeth Gibbs, 2014-05

The Numicon Geometry, Measurement and Statistics 2 Teaching Pack comprises a Teaching Resource Handbook and an Implementation Guide providing the core materials you need to start teaching children aged 6 to 7. The Teaching Resource Handbook provides step by step activities for developing children's understanding of geometry, measurement and statistics. With a great emphasis on problem solving through real world contexts and practical planning and assessment guidance the Teaching Resource Handbook will support you with developing children's mathematical understanding using Numicon. Photocopyable activities for home linked to classroom activities give children the opportunity to practise and discuss maths in a fun, engaging way. Accompanied with editable planning and printable photocopy masters you can personalise to suit the needs of your children. The Implementation Guide offers guidance on what Numicon is, gives advice on how best to implement Numicon in your school and describes the Key Mathematical Ideas that underpin work within this year. With information on the theory behind Numicon this guide will inspire you in building a secure future in mathematics for all children.
