India Is Broken Ashoka Mody, 2023-02-14 A provocative new account of how India moved relentlessly from its hope filled founding in 1947 to the dramatic economic and democratic breakdowns of today When Indian leaders first took control of their government in 1947 they proclaimed the ideals of national unity and secular democracy Through the first half century of nation building leaders could point to uneven but measurable progress on key goals and after the mid 1980s dire poverty declined for a few decades inspiring declarations of victory But today a vast majority of Indians live in a state of underemployment and are one crisis away from despair Public goods health education cities air and water and the judiciary are in woeful condition And good jobs will remain scarce as long as that is the case The lack of jobs will further undermine democracy which will further undermine job creation India is Broken provides the most persuasive account available of this economic catch 22 Challenging prevailing narratives Mody contends that successive post independence leaders starting with its first Prime Minister Jawaharlal Nehru failed to confront India's true economic problems seeking easy solutions instead As a popular frustration grew and corruption in politics became pervasive India's economic growth relied increasingly on unregulated finance and environmentally destructive construction The rise of a violent Hindutva has buried all prior norms in civic life and public accountability Combining statistical data with creative media such as literature and cinema to create strong accessible people driven narratives this book is a meditation on the interplay between democracy and economic progress with lessons extending far beyond India Mody proposes a path forward that is fraught with its own peril but which nevertheless offers something resembling hope

**Corruption Plots** Malini Ranganathan, David L. Pike, Sapana Doshi, 2023-04-15 Winner of the Anthony Leeds Prize in Urban Anthropology by the American Anthropological Association Corruption Plots illuminates how corruption is fundamental to global storytelling about how states and elites abuse entrusted power in late capitalism The millennial city of the global South is a charged setting for allegations of corruption with skyscrapers land grabs and slum evictions invoking outrage at deepening economic polarization Drawing on ethnography in Bengaluru and Mumbai and a cross section of literary and cinematic stories from cities around the world Malini Ranganathan David L Pike and Sapana Doshi pay close attention to the racial caste class and gender locations of the narrators spaces and publics imagined to be harmed by corruption Corruption Plots demonstrates how corruption talk is leveraged to make sense of unequal spatial change and used opportunistically by those who are themselves implicated in wrongdoing Offering a wide ranging analysis of urban worlds the authors reveal the ethical spatial and political stakes of storytelling and how vital it is to examine the corruption plot in all its contradictions
