Our SETI Problem Robert Stetson,2013 The dialog begins with a look at how an ancient tribe would search for intelligent civilizations Then it continues to look at how we search the cosmos for intelligent alien communications This paper explains the concept of Quantum Entanglement It gives you a basic understanding of what it is and how it works Why are we searching the stars for alien radio signals Quantum Entanglement would allow communications across the cosmos at a rate 10 000 times faster than the speed of light We might as well be looking for smoke signals I have also included the title of an article the author and the issue date in Scientific American that has the plans that will allow you to build your own phase differentiator and measure the phase shift in a Quantum Entanglement experiment of your own **AFTER SETI, THEN WHAT** Robert Stetson,2014-12-05 We re looking in all the wrong ways for intelligent life in space but what if we found it Would they be friendly Would they give us all the magic they have learned to perform Would they enrich our lives Even if they just said hello and let s be friends what would be the natural outcome of having them visit Should we be looking for and calling for them to come here Read this natural factual account of having neighbors from space visit us and how it will change our lives *Kepler's Law* Robert Stetson,2013 Some believe that the difference in the way galaxies and solar systems appear to rotate is evidence that dark matter exists This paper does not deny the existence of dark matter This paper explains why solar systems and galaxies appear to obey different laws of motion Kepler s Three Laws of Planetary Motion do not violate the rotation of these two systems They both follow the same laws The New York Times Film Reviews ,1984 The Continuing Study of Newspaper Reading Advertising Research Foundation,1939 Current Law Index ,1987
