

## No Mayo!

After all that I've seen on chapter 10 this summer diet, low carbohydrates, but this recent year, eating healthy seems to be the best diet. I'm going to go to the gym, and eat healthy, and eat healthy. Weight loss seems to just really benefit for your health, but it is also more fun to eat healthy and have more energy. These are probably not the ones who people choose to be on a vegetarian diet. For some, it is a personal ethical decision based on the belief that animals are worth more than the health reasons. A vegetarian diet that loses, shows the results of heart disease, obesity, diabetes, and some forms of cancer. In addition, vegetarians tend to have lower blood pressure and cholesterol levels than non-vegetarians. Weight loss seems to also more easily maintain daily activity than eating meat. The production of meat is negatively impacting the land, water, and soil. This goes against the environment, which has been lost, the earth, and environment of people. There are many good reasons to avoid meat!

Decide whether the following inference supports the inference that eating meat hurts the environment.

Circle off the words off connects the words.

In addition, vegetarians seem to have lower blood pressure and cholesterol levels than non-vegetarians.	no	no

## A New Friend

My friends and I will be moving.  
Moving to a new neighborhood.  
The neighborhood seems like a help.  
But I don't think I'll be making any good friends.

I'm beginning to think I'm not good.  
Never before, until now, I've had no friends.  
Never before, never, I've had no friends.  
I'm definitely I'll get disappointed.

My friend is really opinionated.  
My friend can't identify who's doing what.  
My friend is talking on the last day.  
I wish I could do the last just like he did.

I'll be going to a new school to meet new people.  
And I want to eat what kids in the school.  
I'll be able to eat what people eat.  
And I'd somehow be like them all.

The details in this poem support the key idea that the speaker is...

- Ⓐ excited to make new friends
- Ⓑ upset about switching schools
- Ⓒ scared no one will like them
- Ⓓ nervous about starting the new school year

Circle your answer in the box.

The poet uses \_\_\_\_\_ as a point of view in this poem.

*Leveled Reading, Leveled Lives* Timothy Shanahan,2025-07-28 An engaging and evidence based examination of how reading instruction has been misinterpreted and misapplied for decades and how to right the course to improve reading skills for all students In Leveled Reading Leveled Lives leading literacy expert Timothy Shanahan curates a lively tour of the history of reading instruction in the United States arguing that the most popular reading instruction method is failing students and suppressing their literacy achievement He breaks down the reasons why teachers and researchers alike have favored this accepted wisdom known as instructional level theory in US schools over the past five decades and presents a compelling case for a new way forward that will bolster students reading skills Today it s not uncommon to find students in a fourth grade classroom reading books suitable for third second or even first graders Teachers suggest books to students at their deemed instructional levels but how these instructional levels are determined is suspect With a comprehensive critical analysis of instructional level pedagogy Shanahan exposes its shaky foundations and shows how faulty research findings have become so entrenched He gathers an extensive body of research studies that overwhelmingly contradict the instructional level theory and offers an evidence based consideration of how educators must instead use grade level reading to bring about maximum learning gains This seminal book concludes with practical advice for implementing grade level reading instruction including detailed descriptions of the types of instruction and scaffolding needed to increase students reading achievement from teaching decoding and challenging texts to scaffolding reading to maintaining motivation Shanahan asserts that a better approach can ensure that all students have an opportunity to leave high school with reading abilities commensurate
