USA Today Index ,1996 **The Washington Post Index** ,2008 **Schools for Scandal** Sheldon Anderson,2024-05-22

For well over a century big time college sports has functioned as a business enterprise one that serves to undermine the mission of institutions of higher education This book chronicles the long and tortured history of the NCAA s attempt to maintain the myth of amateurism and the student athlete along with the attendant fiction that the players academic achievement is the top priority of Division I athletic programs It is an indictment of the current system making the case that big time college sports cannot continue its connection to universities without undermining the mission of higher education It concludes with bold proposals to separate big time college sports from the university transforming them into on campus business operations

The Book of American Rankings Clark S. Judge,1979 *The Wall Street Journal* ,2009 *Declining by Degrees* Richard H. Hersh,John Merrow,2015-04-07 What is actually happening on college campuses in the years between admission and graduation Not enough to keep America competitive and not enough to provide our citizens with fulfilling lives When A Nation at Risk called attention to the problems of our public schools in 1983 that landmark report provided a convenient cover for higher education inadvertently implying that all was well on America s campuses Declining by Degrees blows higher education s cover It asks tough and long overdue questions about our colleges and universities In candid coherent and ultimately provocative ways Declining by Degrees reveals how students are being short changed by lowered academic expectations and standards why many universities focus on research instead of teaching and spend more on recruiting and

athletics than on salaries for professors why students are disillusioned how administrations are obsessed with rankings in news magazines rather than the quality of learning why the media ignore the often catastrophic results and how many professors and students have an unspoken non aggression pact when it comes to academic effort Declining by Degrees argues persuasively that the multi billion dollar enterprise of higher education has gone astray At the same time these essays offer specific prescriptions for change warning that our nation is in fact at greater risk if we do nothing *U.
