Munton, Michael Rawling, 2023-12-12 Digital revolution demands new approaches to regulating work The Uberisation of work is not in reality a new phenomenon It reintroduces the practices of on demand engagement of labour common prior to the development of continuing employment What is new however is the capacity of digital technology to engage labour in ways that avoid characterisation as employment according to the legal tests developed in the 20th century This book tackles the challenge of ensuring that the emerging tribes of gig workers in labour markets across the globe are afforded decent standards of work This book discusses how to provide decent conditions and safe working standards for on demand workers engaged through digital platforms It interrogates the rise of gig work and the legal strategies that might be engaged to deal with the risk that on demand work will fall and remain outside of employment protections It draws on observations of practices across the globe but focusses particularly on regulatory solutions developed in Australia The book will be a useful reference to policy making and legal reforms to address vulnerabilities of gig workers **The Last Line of Defense** Eric
