Children with Special Needs Ruth E. Cook,Annette Tessier,Virginia B. Armbruster,1987 His comprehensive practical book is  
built on solid theory and evidence based practices from both the fields of Special Education and Early Childhood Education  
When the first edition was conceived in 1980 the authors encountered students who either had a strong special education  
background or a strong early childhood child development background Each group had a lot to learn from the other and a lot  
to contribute to the other The original purpose was to bring together the best from both fields into Early Childhood Special  
Education The book continues to take a practical activity based approach that is theoretically sound and current It also  
provides ample detail related to specific intervention strategies that enhance the effective use of embedded learning  
opportunities within daily curriculum activities and routines Its relatively jargon free readable approach that is built on  
evidence based practices make it appropriate for a wide range of readers The illustrations of techniques and strategies  
throughout make it sustainable as a resource It has always encouraged a family centered inclusive approach to working with  
young children with special needs and their families      Adapting Early Childhood Curricula for Children in Inclusive  
Settings Ruth E. Cook,Annette Tessier,M. Diane Klein,1996 This comprehensive book takes a non categorical approach to  
preparing future early childhood teachers to help infants and young children with disabilities meet their challenges and  
develop to their fullest potential The result is a versatile and compelling resource of field experience Coverage is organized  
around four themes how all young children learn children in the context of their family traditional developmental domains  
and the need to take a synthesized view of the whole child Dozens of developmentally appropriate activity based strategies  
for adapting curriculum to suit both children and their families are provided in every chapter For future early childhood  
education teachers who will work with exceptional children and need to focus on special needs rather than special labels
