The White House Mari Schuh, 2024-09-17 Since 1800 White House has been the president's home. In its halls leaders sign treaties, the president gives speeches and tourists learn about history. Homes and Haunts Alison Booth, 2016-09-08 This is the first full-length study of literary tourism in North America as well as Britain and a unique exploration of popular response to writers' literary house museums and the landscapes or countries associated with their lives and works. An interdisciplinary study ranging from 1820-1940, *Homes and Haunts: Touring Writers' Shrines and Countries* unites museum and tourism studies, book history, narrative theory, theories of gender, space and things, and other approaches to depict and interpret the haunting experiences of exhibited houses and the curious history of topographical writing about famous authors. In illustrated chapters that blend Victorian and recent first-person encounters that range from literary shrines and plaques to guidebooks, memoirs, portraits and monuments, Alison Booth discusses pilgrims such as William and Mary, Howitt, Anna Maria and Samuel Hall, and Elbert Hubbard, and magnetic hosts and guests as Washington Irving, Wordsworth, Martineau, Longfellow, Hawthorne, James and Dickens, Virginia Woolf's feminist response to homes and haunts, shapes a chapter on Mary Russell Mitford, Gaskell, and the Brontës, and another on the Carlyles' house and Monk's House. Booth rediscovers collections of personalities, haunted shrines, and imaginative re-enactments that have been submerged by a century of academic literary criticism.

Houses from Books Daniel D. Reiff, 2010-11-01 Many homes across America have designs based on plans taken from pattern books or mail-order catalogs. In *Houses from Books*, Daniel D. Reiff traces the history of published plans and offers the first comprehensive survey of their influence on the structure and the style of American houses from 1738 to 1950. *Houses from Books* shows that architectural publications from Palladio's *I Quattro Libri* to Aladdin's Ready-Cut Homes played a decisive role in every aspect

of American domestic building Reiff discusses the people and the firms who produced the books as well as the ways in which builders and architects adapted the designs in communities throughout the country His book also offers a wide ranging analysis of the economic and social conditions shaping American building practices As architectural publication developed and grew more sophisticated it played an increasingly prominent part in the design and the construction of domestic buildings In villages and small towns which often did not have professional architects the publications became basic resources for carpenters and builders at all levels of expertise Through the use of published designs they were able to choose among a variety of plans styles and individual motifs and engage in a fruitful dialogue with past and present architects Houses from Books reconstructs this dialogue by examining the links between the published designs and the houses themselves Reiff s book will be indispensable to architectural historians architects preservationists and regional historians Realtors and homeowners will also find it of great interest A catalog at the end of the book can function as a guide for those attempting to locate a model and a date for a particular design Houses from Books contains a wealth of photographs many by the author that enhance its importance as a history and guide
