## **More Or Less Choosing A Lifestyle Of Excessive Generosity:**

**More or Less** Jeff Shinabarger,2013-03-01 In More or Less Jeff Shinabarger calls readers to create their own social experiments to answer the question What is enough It all started with one idea What would happen if we created a culture in which we gave away whatever was more than enough for us How would our habits change if we shed the excess of money clutter and food in our lives In More or Less readers will learn how to draw a line of enough in their consumer choices how to see generosity as a chance to experience freedom in a greedy world and how to make small changes now that will help others forever As Shinabarger reminds them defining enough is more than a responsibility it is an opportunity to give hope With a foreword by Bob Goff

**Yes or No** Jeff Shinabarger,2014-09-01 As you face daily choices that require yes or no decisions there are times when you feel paralyzed either from fear of making the wrong choice or because of too many seemingly equal options Social entrepreneur Jeff Shinabarger helps you break through these moments of tension and transition with proven ways to move toward good choices Discover opportunities to become a decision maker as you gain strength in saying no develop your personal philosophy of choice and start using a practical process for making good choices even in difficult situations

**Rise of the DEO** Maria Giudice,Christopher Ireland,2013-10-04 The majority of companies their employees and their leaders navigate a space where competitors appear overnight customers demand innovations monthly business plans rarely last a full year and career ladders have been replaced by trampolines This environment of constant change will only accelerate in the future and traditional business leaders are ill equipped to deal with it Just as we took our cues from MBAs and the military in casting the ideal CEO of the 20th century we can look to design in its broadest form to model our future leader the DEO These leaders possess characteristics behaviors and mindsets that allow them to excel in unpredictable fast moving and value charged conditions They are catalysts for transformation and agents of change A hybrid of strategic business executive and creative problem solver the DEO is willing to take on anything as an object of design and looks at ALL problems as design challenges Readers will learn not only why this form of leadership is essential to the success of modern organizations but also what characteristics are best suited to this role Through intimate conversations with leading DEOs we explore the mindsets communities processes and practices common to creative business leaders The book lays out graphically and through example how DEOs run their companies and why this approach makes sense now We help readers identify these skills in themselves and their colleagues and we guide them in using these skills to build revive or reinvent the next generation of great companies and organization
