Scholarships How To Returns:

Report, with Minutes of Evidence, Documents, and Tables and Returns Great Britain. Commissioners Appointed to Inquire into the Progress and Condition of the Queen's Colleges at Belfast, Cork and Galway, 1858 Secondary Education in England 1870-1902 Prof John Roach, John Roach, 2012-10-12 In this comprehensive and extensively researched history John Roach argues for a reassessment of the relative importance of State regulation and private provision. Although the public schools enjoyed their greatest prestige during this period in terms of educational reform and progress their importance has been exaggerated. The role of the public school he suggests was social rather than academic and as such their power and influence is to be interpreted principally in relation to the growth of new social elites the concept of public service and the needs of the empire for a bureaucratic ruling class. Only in the modern progressive movement launched by Cecil Reddie and the private provision for young women was lasting progress made. Even before the 1902 Education Act however the State had spent much time and effort regulating and reforming the old educational endowments and it is in these initiatives that the foundations for the public provision of secondary educational reform are to be found *Returns from Universities and University Colleges in Receipt of Treasury Grant* Great Britain.
