National Institute, 2007 Advertising in Poland and Germany - A Comparison Sotirios Dramalis, 2006-07-17 Research Paper undergraduate from the year 2005 in the subject Business economics Offline Marketing and Online Marketing grade 1 8 University of Cooperative Education

Mannheim Berufsakademie Mannheim Staatliche Studienakademie course International Marketing language English abstract Both number of advertisers and expenses for advertising have rapidly increased in Poland in the last years. From 1993 to 1994 advertising expenses grew from 299 to 469 million dollars. Continuous economical reforms and expenditure further contributed to this growth. Consequently the case of Poland provides an ideal opportunity to study the impact an economy's stage of development has on advertising management. West Paliwoda 1996 p 82 Poland also offers huge potentials for its neighbouring countries which is especially true for Germany. From a German perspective it is eminently important to understand the differences between the German and the Polish culture as culture has a major impact on advertising and communication. The above justifies and is reason enough to have a deeper look at the Polish advertising market with reference to Germany. Therefore these issues will be dealt within the following study paper. It starts with theoretical background information on advertising and then continues with a secondary statistical analysis of major advertisement conditions in the Polish and German markets. This involves comparing the legal framework and general infrastructure advertising agencies media for advertising in the two countries. Furthermore the attitudes of Poles and Germans towards advertisement will be explained as well as the influence the Polish and German cultures have on advertising appeals. The

comparison concludes with an outlook on the further development of the advertising markets in Germany and Poland by stating potential similarities and differences **Your Smart Retail Market Strategy Book** Ho Eng Wah,2017-01-20 The objectives of this book are To share what are the excitements and challenges facing in the retailing industry To create different strategies by using the right retail format strategy to meet the specific target market segment How retailers able to create a competitive advantage edge over competitors in order to achieve sustainable growth in revenue and profit in the longer term for the organization Successful SMART Retailing How to define your SPECIFIC target market segment to MEET your customers needs and wants in order to create a competitive ADVANTAGE edge to achieve sustainable financial performance RESULTS by utilizing the current TECHNOLOGICAL advancement and implementing of ENTREPRENEURSHIP mindset Kindergarten Review ,1896 Farm and Food Research ,1980 **Moody's Bank and Finance Manual** ,1997
