**Generative AI Art** Oliver Theobald, 2024-03-13 The course introduces the basic concepts of artificial intelligence and its application in art making it accessible even to those without a technical background This foundation paves the way for exploring the nuances of effective prompt crafting a critical skill for generating bespoke AI artwork The course focuses on hands on demonstrations with leading AI art software including Craiyon and Midjourney offering step by step guides to harness these tools effectively Through practical examples learners will understand how to navigate image prompts masking techniques framing and lighting to enhance the visual appeal of their creations The significance of navigating these elements is underscored highlighting their role in achieving consistency and originality in AI generated art The course wraps up by delving into the remixing of popular art styles the art of creating compelling text prompts and the critical aspects of image rights ethics privacy and originality in the digital art space By concluding with recommended resources learners are equipped to continue their journey in AI art fueled by inspiration and a solid understanding of the field's possibilities and responsibilities

**Build a Text-to-Image Generator (from Scratch)** Mark Liu, 2026-01-13 This book takes you step by step through creating your own AI models that can generate images from text You'll explore two methods of image generation vision transformers and

diffusion models and learn vital AI development techniques as you go Dive into the powerful models behind AI image generators The best way to learn is to build something from scratch and in this book you ll build your very own diffusion model and vision transformer As you work through each stage of development you ll develop an understanding of how these models can be customized applied and integrated for impressive multimodal AI Build a Text to Image Generator from Scratch teaches you how to Build and train models to generate high resolution images based on text descriptions Edit an existing image based on text prompts Build and train a model to add captions to images Build and train a vision transformer to classify images Fine tune LLMs for downstream tasks such as classification text or image generation Better differentiate real images from deepfakes About the technology AI generated images appear everywhere from high end advertising to casual social media feeds Text to image tools like Dall e Midjourney and Flux make it easy to create AI art but how do they work In this book you ll find out by building your own text to image generator About the book Build a Text to Image Generator from Scratch explores both transformer based image generation and diffusion models You ll work hands on to build a pair of simple generation models that can classify images automatically add captions reconstruct images and enhance existing graphics Author Mark Liu guides you every step of the way with clear explanations informative diagrams and eye opening examples you can build on your own laptop What s inside Build a vision transformer to classify images Edit images using text prompts Fine tune image models About the reader Requires basic knowledge of generative AI models and intermediate Python skills About the author Mark Liu is the founding director of the Master of Science in Finance program at the University of Kentucky He is also the author of Learn Generative AI with PyTorch Table of Contents Part 1 1 A tale of two models Transformers and diffusions 2 Build a transformer 3 Classify images with a vision transformer 4 Add captions to images Part 2 5 Generate images with diffusion models 6 Control what images to generate in diffusion models 7 Generate high resolution images with diffusion models Part 3 8 CLIP A model to measure the similarity between image and text 9 Text to image generation with latent diffusion 10 A deep dive into Stable Diffusion Part 4 11 VQGAN Convert images into sequences of integers 12 A minimal implementation of DALL E Part 5 13 New developments and challenges in text to image generation A Installing PyTorch and enabling GPU training locally and in Colab [AI ...](#) ,2005 *Artificial Intelligence* W.
