buys and stays loyal to brands. But marketing departments are still operating in the same campaign centric product led operation that they have been following for 75 years. The most innovative companies around the world have achieved remarkable marketing results by fundamentally changing their approach. By creating value for customers through the use of owned media and the savvy use of content, these businesses have dramatically increased customer loyalty and revenue. Some of them have even taken it to the next step and developed a marketing function that actually pays for itself. *Killing Marketing* explores how these companies are ending the marketing as we know it in favor of this new exciting model. *Killing Marketing* provides the insight, approaches, and examples you need to understand these disruptive forces in ways that turn your marketing from cost center to revenue creator. This book builds the case for literally transforming the purpose of marketing within your organization. Joe Pulizzi and Robert Rose of the Content Marketing Institute show how leading companies are able to sell the very content that propels their marketing strategy. You'll learn how to transform all or part of your marketing operation into a media company. Integrate this new operation into traditional marketing efforts. Develop best practices for attracting and retaining audiences. Build a strategy for competing against traditional media companies. Create a paid/earned media strategy fueled by an owned media strategy. Red Bull, Johnson Johnson, Disney, and Arrow Electronics have succeeded in what ten years ago would have been deemed impossible. They continue to market their products as they always have and through their content driven and audience building initiatives, they drive value outside the day to day products they sell and monetize it directly. *Killing Marketing* rewrites the rules of marketing, enabling you to make the kind of transition that turns average companies into industry legends.
