## *Systems of Support in Education Settings*

Kelly Challis, 2026-02-27 All classrooms have neurodivergent children and young people in them and how you support them as a practitioner has a lasting impact. This book guides you in understanding and developing a system for supporting neurodiversity in your classroom. The book introduces the concept of systems thinking to an education setting providing tools and strategies to both broaden your knowledge of neurodiversity and to develop a framework to meet the needs of neurodivergent learners. Systems thinking will encourage you to get comfortable with uncertainty to look for connections or patterns and to be prepared to change if something isn't working. By increasing your awareness and remaining curious about the individual needs in your classroom you will enrich the learning experience for all. Chapters guide you to make plans, change practices and take risks for learners to progress considering a constellation of skills with carefully selected tasks and practical interventions to help you to know when to reflect when to apply knowledge and when to discuss further with colleagues. Systems of Support in Education Settings introduces a system for you with you and your learners at its heart. It provides a hands on approach to supporting neurodiversity in primary and secondary classrooms and will be essential reading for teachers both new and experienced who are keen to improve and invest in effective practice.

**McGraw-Hill Reading [Grade 4]**, 2001 **Reading for Life**

Lyn Stone, 2018-12-07 Why is it that more people can't read and write? Why are there still so many vastly different methods of teaching literacy? Why do people still argue about it? *Reading for Life* examines these three questions addressing the less evidence-supported ideas about teaching reading and writing which are still alive and well in schools all over the world. This accessible guide bridges the gap between research and practice translating academic findings into practical suggestions and ready-to-use techniques. Written in an approachable style and with informative graphics, vignettes and interviews woven throughout this book covers the components of literacy including phonics, vocabulary and fluency, the history of approaches to literacy teaching and an overview of the key figures government level inquiries into the provision of reading and writing teaching, the mindset which leads to acceptance of poor practice, the essential components of an effective literacy program with practical advice on selecting resources to get the job done well. *Reading for Life* helps educational practitioners make informed decisions about which teaching methods to reject and select and empowers parents to ask the right questions of professionals and policy makers. This book is a timely exploration of poor teaching methods and is an innovative, fresh assessment of how high quality literacy teaching can be provided for all
