

# Breakfast

Breakfast is often called the most important meal of the day. It provides us with the energy we need to start our day. A healthy breakfast includes a variety of foods from different food groups. Some common breakfast foods are cereal, toast, eggs, fruit, and yogurt. Eating a balanced breakfast helps us concentrate better in school and gives us the nutrients our bodies need. It's important not to skip breakfast because it sets the tone for the rest of the day.

*Evidence-Based Practice in School Mental Health* James C. Raines, 2019-03-19 Though schools have become the default mental health providers for children and adolescents, they are poorly equipped to meet the mental health needs of their students. Evidence-Based Practice in School Mental Health differs from other books that address child and adolescent psychopathology by focusing on how to help students with mental disorders in pre-K-12th grade schools. Chapters address the prevalence of a disorder in school-age populations, appropriate diagnostic criteria, differential diagnosis, comorbid disorders, available rapid assessment instruments, school-based interventions using multi-tiered systems of support, and easy-to-follow suggestions for progress monitoring. Additionally, the text shares detailed suggestions for how school-based clinicians can collaborate with teachers, parents, and community providers to address the needs of youth with mental health problems. Each chapter finishes with extensive web resources and real-life case examples drawn from the author's clinical practice. This book serves as a helpful resource for school-based mental health providers, e.g., school social workers, school psychologists, and school counselors, communities in schools, coordinators, and MSW students focusing on child and adolescent mental health.
