Proceedings of the 23rd International Conference on Industrial Engineering and Engineering Management

2016 Ershi Qi, Jiang Shen, Runliang Dou, 2017-03-07 International Conference on Industrial Engineering and Engineering Management is sponsored by Chinese Industrial Engineering Institution CMES which is the unique national level academic society of Industrial Engineering. The conference is held annually as the major event in this area. Being the largest and the most authoritative international academic conference held in China, it supplies an academic platform for the experts and the entrepreneurs in International Industrial Engineering and Management area to exchange their research results. Many experts in various fields from China and foreign countries gather together in the conference to review, exchange, summarize and promote their achievements in Industrial Engineering and Engineering Management fields. Some experts pay special attention to the current situation of the related techniques application in China as well as their future prospect such as Industry 4.0, Green Product Design, Quality Control and Management, Supply Chain and logistics Management to cater for the purpose of low carbon energy saving and emission reduction and so on. They also come up with their assumption and outlook about the related techniques development. The proceedings will offer theatrical methods and technique application cases for experts from college and university research institution and enterprises who are engaged in theoretical research of Industrial Engineering and Engineering Management and its techniques application in China. As all the papers are feathered by higher level of academic and application value, they also provide research data for foreign scholars who occupy themselves in investigating the enterprises and engineering management of Chinese style. **Hollywood and China in the**

Post-postclassical Era Lara Herring, 2024-03-18 This book examines the contemporary relationship between Hollywood and China as case studies that help to define a new era in Hollywood film industry style and economics which is termed the post postclassical period. Centred around a case study of Legendary Entertainment, the analysis shows how the studio adopted and adapted its global strategies in order to gain access to and favour within the Chinese film market and how issues of censorship and financial performance affected the choices they made. Demonstrating Legendary's identity as a post postclassical studio and examining how this plays into its China strategy, this book explores how this particular case and the necessary analysis of wider political economic relations offer a periodisation of the contemporary Hollywood-China relationship. This book will interest students and scholars of media and film studies as well as academics whose research interests include global cinema, Hollywood, Chinese cinema, transnational cinema and film industry studies. *Programs* University of Michigan, School of Music, Theatre & Dance, 2007. *Unbelievably Good Deals and Great Adventures that You Absolutely Can't Get Unless You're a Student* Marian Edelman Borden, 2002.
