Financial Aid Price Promo:

Redesigning the Financial Aid System Robert B. Archibald,2002-12-13 Archibald argues that one of the problems with the current model in which universities are responsible for the majority of grants while the federal government provides student loans is that a student cannot know the final price of attending a given institution until after he or she has applied been accepted and received a financial aid offer As a result students remain largely uninformed about the cost of their college educations until very late in the decision making process and thus have difficulty making a timely choice In addition financial aid information is kept private creating confusion over the price of a college education and the role of financial aid
