1.) Declan is buying a new pair of shoes with an original price of \$95.

Calculate the price of the shoes after 20% off.

$$95(0.20) = 19$$

$$95 - 19 = 76$$

Calculate the price of the shoes after \$20 off.

$$95 - 20 = 75$$

Modi, Alpa A. Shah, 2020-06-24 This One Sheet A Day math drill workbook is for 5th grade students who want extra practice with two number addition with decimals from hundredths to thousandths It contains 200 math practice sheets one for each school day of the year Upon completion the student will be more competent in 5th grade mathematics and ready to proceed with more difficult exercises Unlike other math drill books this is one of 24 workbooks created to establish a daily routine for each student to practice on their own from grades 1 through 7 It is specifically designed to gradually increase mathematic ability with the least amount of stress for both parent and student Kids need to practice at home to support what they are learning in school but finding resources

to help with that goal can be daunting. It takes a lot of time searching online for free resources to print or for books with enough exercises. Beyond that, the options include going to libraries, enrolling them in an afterschool class, or hiring a personal tutor. Who has the time and money for all of that? The answer is not many parents. Each and every parent wants to provide enough practice work to their kids, but on top of the challenges in finding resources, questions remain about how much practice a child needs to boost educational success: twenty sheets of practice work a day? One sheet a week? What's the optimum practice work during a whole academic year? Confused? The authors have a decade of classroom expertise and have spent a large amount of time researching and wasting resources trying all the options for their own kids. Now you can benefit from what they have learnt. The result is finding out that ONE SHEET A DAY is the optimum way to support classroom learning and it is amazingly simple. This book eliminates the need to take home prints or run around franchises, bookstores, and libraries trying to find enough material. It also prevents you from overwhelming your kids with too many math drill worksheets. There are approximately 200 school days a year. Simply have your child complete ONE per day. Work is far easier when it is part of a routine, especially for kids. The One Sheet per Day program is an easy routine to start and maintain because it takes less than 20 minutes per day using basic skills your child already knows. Simply take one sheet from the book, ask your child to complete it in a quiet place, and return it to you to check the answers: a painless routine for you and your child, and instant feedback for both of you. Geared to follow most math curriculums, most kids can do the appropriate sheet on their own based on what they are learning at school. One Sheet A Day math practice drills will

Mathpix, 2020-08. Learning addition and subtraction has never been so quick, easy, and fun. Instead of having to check every worksheet answer manually, simply scan worksheet pages with the companion app, and Mathpix AI will instantly find errors and compute a grade. Unlike pure software solutions, these worksheets allow students to work with good old-fashioned pencil and paper while still preserving the benefits of software-powered instant feedback. Pencil and paper have been shown to lead to better learning outcomes than tablet-powered solutions. Mathpix Worksheets reduces children's screen time and makes life easier for parents and teachers who wish to teach their children arithmetic quickly and efficiently with minimal tediousness. Spend more time teaching and less time grading with Mathpix Worksheets. It's a perfect homeschool and after-school educational activity for young children.
