**Restorative Literacy Practices** Deirdre Faughey, 2023 What happens when learning is approached as a transaction between teachers students texts and methods Based on classroom action research conducted in a diverse suburban school district the author shares a framework that encourages teachers to approach their work with a restorative mindset by focusing on four elements of instruction methods literature relationships and culture identity and language In each chapter Faughey shares a scenario or problem from her ELA classroom the action she took to address it and the outcomes Examples include a 9th grade classroom where students developed podcasts to share their thinking about Romeo and Juliet a 10th grade classroom where multilingual learners created graphic essays to share their comparative analysis of Things Fall Apart and the film Black Panther and a 12th grade classroom where students reimagined Dracula in order to connect personally with the text through restorying This accessible text provides resources lesson plans and examples of student work as well as suggestions for teacher preparation programs Book Features Shares the perspective of a classroom teacher who understands the daily interactions teachers have with students as well as the possibilities and limitations of teaching in today s schools Demonstrates a problem solving thought process with a step by step explanation of the author s teaching process Includes vivid anecdotes about students pictures of students working together and examples of student work Situates each scenario within a body of theoretical and research literature introducing concepts such as cosmopolitan theory reader response theory and literary theory Offers lesson plans rubrics and handouts that teachers can use to inform their own practice Provides lists of podcasts videos articles and books that can be used when teaching classic texts such as Dubliners The Great Gatsby and The Yellow Wallpaper

**Investigating Water With Young Children (Ages 3-8)** Beth Dykstra Van Meeteren, 2023 Water is a meaningful context for children to engage in inquiry and acquire and use science and engineering practices such as developing spatial thinking and early concepts of water dynamics This book shows teachers how to engage children with opportunities to engineer water movement through pouring and filling containers of various kinds and shapes observing how water interacts with surfaces in large and small amounts exploring how water can be moved and using water to move objects These experiences build a foundation that will

support children's more complex study of this phenomena in later schooling as well as encourage interest in STEM fields The text provides guidance for arranging the physical intellectual social emotional and promotional environments of the early childhood classroom for integrating literacy learning and for building essential partnerships with administrators and families to enhance STEM learning for our youngest learners Book Features Introduces WaterWorks an integrative STEM experience developed by young children their teachers and early childhood researchers Describes an approach that engages children in doing science and engineering rather than teaching children about these fields Offers children the opportunity to engage in STEM experiences every day in their classrooms alongside literacy learning Illustrates ways to plan and use over ten types of engineering experiences appropriate for children ages 3-8 Includes guidance for documenting children's learning over time Aligns to the Early Learning Outcomes Framework and the Next Generation Science Standards Contributors Allison Barness Shelly L Counsell Lawrence Escalada Judith Finkelstein Linda Fitzgerald Sherri Peterson Jull Uhlenberg and Wendy Miller Praise for the STEM for Our Youngest Learners Series This series is an important addition to a very limited field of guides for teaching STEM to young learners While activity books abound this series with its basis in constructivism and its use of an inquiry based teaching model guides teachers in creating in depth experiences for children to examine the natural world while building their critical thinking skills and deepening their curiosity about and interest in the world around them Karen Worth consultant in science education early childhood and elementary years *Allez, Viens!: level 2* John DeMado,2000
