**Amy Mayer, Kevin McGinley**

## **Oracle Daily Business Intelligence User Guide R12:**

**The Release 12 Primer - Shining a Light on the Release 12 World** Barbara Matthews, John Stouffer, Karen Brownfield, 2008-07-18 If you've been thinking about installing or upgrading to Release 12 but need to understand more about why you should do so this is the book for you. For functional users The Release 12 Primer highlights the modules that have changed the most. Read about Oracle's Global Business Release Master Data Management MOAC and the Swan Interface. Then see how it all comes together for the Financials and Procurement product families Supply Chain Management, CRM and Projects. And if you've always wanted to understand more about the underlying technology but found all the terminology too complex to sort through this book covers the technical architecture, security issues and even Fusion targeting both functional and technical readers. The Release 12 Primer provides the real story on the latest version of the Oracle E-Business Suite and its technical underpinnings. If you only buy one book on Oracle E-Business Release 12 buy this one. Floyd M. Teter Systems Engineer JPL

**Oracle Business Intelligence 11g Developers Guide** Mark Rittman, 2012-09-22

Cody,Emily M. Vose,2011-12-08 Annotation Oracle Hyperion Interactive Reporting is one of many products in the Oracle Business Intelligence Enterprise Edition Plus software suite an industry leading business intelligence platform The primary focus of the Interactive Reporting product is to provide strong relational querying and data analysis capabilities where the software provides significant flexibility for creating custom dashboards interfaces and data analysis routines through the use of JavaScript programming and built in software functionality While Interactive Reporting is extremely flexible performing advanced operations in the software is complicated and requires basic programming knowledge and an advanced

understanding of the software This book continues from where The Business Analysts Guide to Oracle Hyperion Interactive Reporting 11 completed and provides the reader with the information to successfully execute the advanced features of the product along with examples and specific techniques applicable to everyday use The Oracle Hyperion Interactive Reporting 11 Expert Guide provides software users and developers with many examples of the techniques used by software experts The book begins with an introduction to leveraging advanced features of the project and an introduction to JavaScript Dashboards are a major focus of the book with four chapters focused on building a simple to complex dashboard including functions global objects and syncing selections across dashboards The book places an emphasis on learning methods for data analysis by using advanced programming and built in functions and a unique approach to using code to generate batch reports and exports is provided The Dashboard Studio Optimize Utility and the Dashboard Studio Merge utility are explained in detail and the approach to building and using a central code repository for use in dashboards and computations across multiple documents in an enterprise is demonstrated This book will help the reader become an expert user of the software providing the skills necessary to understand communicate and perform advanced level tasks The authors experience in developing and supporting Interactive Reporting users is very apparent throughout each chapter of the book While the book displays content and examples from version 11 of the software the book is also applicable to previous versions of the software dating back to version 8 so readers not currently using Interactive Reporting 11 will find the book applicable to daily use with the product

Business Intelligence in Oracle Apex Riaz Ahmed,2018-06-02 Today is the most tiring day for John who is the only Oracle APEX developer in his company He is exhausted because he answered several analytic queries raised by different departments of his organization Addressing such queries from colleagues has become a daily routine for John And there is not a single day when he is not privileged to see Karen the sales manager As expected she hops into John s office and as usual with a list of her simple but time consuming queries Tired John is seriously considering developing a solution to lighten his load The solution will serve the following objectives Put the company data at the fingertips of end users with the help of a business intelligence application so that they could get insight from this data themselves anytime anywhere In contrast to the traditional sophisticated business intelligence solutions that everyone in John s organization is not able to run the self serving business intelligence application should be simple and user friendly that a user with no technical skills could also use easily The flexible business intelligence application John is planning to develop will have two broad features Analyses creation This includes the selection of columns from multiple tables application of filters and aggregate functions and generation of dynamic SQL queries through a user friendly interface Visualization Dig intelligence from data mine and visualize the analyses results on the fly via simple tables multi dimensional pivot tables different types of charts and master detail maps John will develop this self service app single handedly and will also provide some simple hands on training to his colleagues on the development side to make them self reliant Let s see how John undertakes this unique project in Oracle
