McPherson, James Keith Hogue, 2009 Combining scholarship with interpretations based on teaching research and writing this text tells the story of the American Civil War and Reconstruction It describes the social economic political and ideological conflicts that led to a unique tragic and transitional event in American history **Ordeal by Fire** ,1996 **Ordeal by Fire** James M. McPherson, 2000-06 Written by a leading Civil War historian and Pulitzer Prize winner this text describes the social economic political and ideological conflicts that led to a unique tragic and transitional event in American history The third edition incorporates recent scholarship and addresses renewed areas of interest in the Civil War Reconstruction era including the motivations and experiences of common soldiers and the role of women in the war effort **Ordeal by Fire: The Civil War** James M. McPherson, 1993 Grand Strategy in Theory and Practice William C. Martel, 2015-01-12 This book explores fundamental questions about grand strategy as it has evolved across generations and countries It provides an overview of the ancient era of grand strategy and a detailed discussion of its philosophical military and economic foundations in the modern era The author investigates these aspects through the lenses of four approaches those of historians social scientists practitioners and military strategists The main goal is to provide contemporary policy makers and scholars with a historic and analytic framework in which to evaluate and conduct grand strategy By providing greater analytical clarity about grand strategy and describing its nature and its utility for the state this book presents a comprehensive theory on the practice of grand strategy in order to articulate the United States past present and future purpose and position on the world stage The Presidencies of Zachary Taylor & Millard Fillmore Elbert B. Smith, 1988 In this book Elbert B Smith disagrees sharply with traditional interpretations of Taylor and Fillmore the twelfth and thirteenth presidents from 1848 to 1853 Smith argues that Taylor and Fillmore have been seriously misrepresented and underrated They faced a terrible national crisis and accepted every responsibility without flinching or directing blame toward anyone else Publisher **The Reckoning** Robin Blackburn, 2024-02-06 The Age of Revolution 1776 1848 destroyed the main slave regimes of the Caribbean but a Second Slavery surged in the US South Cuba and Brazil powered by demand for plantation produce and a system of financial credit that leveraged the value of the slaves By 1860 more than 6 million captives of African descent toiled to produce the cotton sugar and coffee craved by global consumers This Second Slavery mimicked capitalist disciplines intensified slavery's racial character and launched half a century of headlong economic growth On the eve of the American Civil War the Slave Power seemed invincible The slaveholding elite entrenched their peculiar institution in the fabric of the Union only to risk everything on secession Nobody solicited the slaves wishes until it became clear that wherever they could they were deserting the plantations and joining the Union forces Abolition radicals destroyed the Second Slavery and victory for the North also spelled defeat for slavery in Cuba and Brazil

But in each of these societies racial oppression was to be reconfigured by Black Codes Jim Crow and toxic doctrines of racial destiny Slavery leaves an indelible mark on many Atlantic nations The Reckoning charts the historic impact of slavery and anti slavery of black and white activists of fugitive slaves feminists writers clerics and soldiers Notwithstanding much unfinished business the anti slavery struggle retains its capacity to illuminate and inspire **Studyguide for Ordeal by Fire** Cram101 Textbook Reviews,2009-12 Never HIGHLIGHT a Book Again Virtually all of the testable terms concepts persons places and events from the textbook are included Cram101 Just the FACTS101 studyguides give all of the outlines highlights notes and quizzes for your textbook with optional online comprehensive practice tests Only Cram101 is Textbook Specific Accompanys 9780072317367 *Outlines and Highlights for Ordeal by Fire* Cram101 Textbook Reviews,2009-09 Never HIGHLIGHT a Book Again Virtually all testable terms concepts persons places and events are included Cram101 Textbook Outlines gives all of the outlines highlights notes for your textbook with optional online practice tests Only Cram101 Outlines are Textbook Specific Cram101 is NOT the Textbook Accompanys 9780131596764 The Rifle Musket in Civil War Combat Earl J. Abzug,Stephen E. Maizlish,2014-07-15 For more than three decades race relations have been at the forefront of historical research in America These new essays on race and slavery some by highly regarded award winning veterans in the field and others by talented newcomers point in fresh directions They address specific areas of contention even as together they survey important questions across four centuries of social cultural and political history Looking at the institution itself Robert McColley reconsiders the origins of black slavery in America while William W Freehling presents a striking interpretation of the Denmark Vesey slave conspiracy of 1822 In the political arena William E Gienapp and Stephen E Maizlish assess the power of race and slave issues in respectively the Republican and Democratic parties of the 1850s For the Civil War and Reconstruction eras Reid Mitchell profiles the consciousness of the average Confederate soldier while Leon F Litwack explores the tasks facing freed slaves Arthur Zilversmit switches the perspective to Washington with a reevaluation of Grant s commitments to the freedmen Essays on the twentieth century focus on the South James Oakes traces the rising fortunes of the supposedly vanquished planter class as it entered this century Moving to more recent times John G Sproat looks at the role of South Carolina s white moderates during the struggle over segregation in the late 1950s and early 1960s and their failure at Orangeburg in 1968 Finally Joel Williamson assesses what the loss of slavery has meant to southern culture in the 120 years since the end of the Civil War A wide ranging yet cohesive exploration New Perspectives on Race and Slavery in America takes on added significance as a volume that honors Kenneth M Stampp the mentor of all the authors and long considered one of the great modern pioneers in the history of slavery and the Civil War

The Union Soldier in Battle Earl J. Hess,1997 A reminder that the buisness of war is killing this study recounts the

hellish realms of Civil War combat Drawing upon letters diaries and memoirs of Northern soldiers it reveals not only their deepest fears and shocks but also their sources of inner strengths Ordeal by Fire James M. McPherson,1982 Written by a leading Civil War historian and Pulitzer Prize winner this text describes the social economic political and ideological conflicts that led to a unique tragic and transitional event in American history The third edition incorporates recent scholarship and addresses renewed areas of interest in the Civil War Reconstruction era including the motivations and experiences of common soldiers and the role of women in the war effort Ordeal by Fire James M. Palmer,1998 This text focuses on the ways in which a people constructed themselves the institutions they created and the battle for freedom and equality they waged Volume two begins with the 1863 Emancipation Proclamation and finishes in 1965 with the effective stage of the civil rights movement Beating Plowshares Into Swords Paul A. C. Koistinen,1996 Koistinen describes how an undeveloped preindustrial economy forced Americans to fight defensive wars of attrition like the Revolution and the War of 1812 By the time of the Mexican War however a gradually maturing economy allowed the United States to use a much more offensive minded strategy to achieve its goals The book concludes with an exhaustive examination of the Civil War a conflict that both anticipated and differed from the total wars of the industrialized era Koistinen demonstrates that the North relied upon its enormous economic might to overwhelm the Confederacy through a strategy of annihilation while the South bungled its own strategy of attrition by failing to mobilize effectively a much less developed economy
