Activity: How the Railroad Changed the West

Write below:

Imagine this: thousands of immigrants and thousands of people from across the country during the late 1800s, through Canada and Europe, traveled across the United States with the hope of finding better opportunities (work, living conditions). They were not alone, but many immigrants and Chinese taking the railroads across the country that they traveled, and the United States government also used the railroads for moving people during the Reconstruction period after the war.

Before the great westward migration, there were a small number of people living on the coast in America, many were working for the railroads by doing heavy work. This was the beginning of the great westward migration. From the beginning of the 1800s to the end of the 1800s, the railroads connected the country, making the Pacific Northwest the most important area during the 1800s, as they all traveled across the country. The railroads also helped the people who were all working for the railroads, and the people who were working for the railroads, and the people who were working for the railroads.

During the late 1800s, the railroads were the main way of traveling across the country, and the railroads were the main way of traveling across the country. The railroads were the main way of traveling across the country, and the railroads were the main way of traveling across the country. The railroads were the main way of traveling across the country, and the railroads were the main way of traveling across the country. The railroads were the main way of traveling across the country, and the railroads were the main way of traveling across the country.
