In 2015 when Ohio State took on the University of Oregon in the first College Football Playoff championship game, millions of sports fans tuned in. But back in 1869 when Rutgers University and Princeton University played the first ever college football game, no one predicted the national spectacle that a college football championship game would become. Author Matt Doeden takes readers on a journey from the disorganized games of the early years to the most recent playoffs to determine the best college team in the nation. Along the way, discover some of the most incredible moments, games, blunders, and statistics in the history of college football championships. *Game Day* Craig James, 2009-08-11 The popular college football analyst weighs in on the craziness of college football and the 2008 season. If television's college football analysts had a Hall of Fame, Craig James would definitely be in it. His opinion and insight on ABC and ESPN, not to mention occasional jabs of sharp humor and Texas charm, are as addictive as the games are. *Game Day* takes a complete inside look at the 2008 college football season from James's behind-the-scenes Spring Tour when he met with players and coaches from twenty top programs to the bowl season. He makes the book timeless by using the season as a springboard to tell tons of great college football stories from his twenty years spent covering the sport. Captures twenty years of unforgettable college football wit and wisdom from his time as a player at SMU and for the New England Patriots through his time in the booth. Includes details about most of the top twenty programs around the country. Covers the game the way only James can. No one can capture the essence and spirit of a college football season better than Craig. Doug Flutie. No matter what team you support or how well they did in 2008, if you love college football, *Game Day* is a book you just have to read. [Meat Market](#) Bruce Feldman, 2014-11-02 One of the most insightful books ever written about college football. The New York Times. Now revised and updated by the author, MEAT MARKET proves that in college football, the game off the field is more brutal than the one on the field. In this shattering expose, Bruce Feldman goes into the war rooms to show who stands to profit when champions get built and at what cost. A college football program can become a multi-million dollar industry for its school, but only if that program wins. The quest for excellence goes beyond the guts and the glory of the gridiron; it goes into the war rooms where recruiters size up every metric to determine which high school phenom they want to recruit to the university. Bruce Feldman, FOX Sports College Football Insider, rips the cover off the game's frenzied pursuit of raw talent.
