Cowles Foundation for Research in Economics, 2002 **The Greatest College Football Program of All Time** Lee Young, 2016-11-28 This book synthesizes massive amounts of college football statistical and historical research from 32 of the nation s top college football programs and puts it at your fingertips in an easy to read and easy to find format of 32 graphs College football fans will quickly be able to sort and compare this treasure trove of the most important statistics and be able to sound like an authority when talking about college football With this book you will not only be able to compare top college football programs you will discover which team is the Greatest Of All Time **Determining the College Football Playoff** Ray D. Theis, Mark G. Terwilliger, 2021-08-12 In this book we explore the history of college football and in particular the mythical college championship from 1869 to the present day For several years different media outlets took it upon themselves to declare a national championship which led to nothing short of confusion In one year four different teams were named champion This chaotic situation and accompanying controversy ultimately led to the creation of the Bowl Championship Series or BCS Initially the BCS selection was based on a formula that incorporated several polls and computer models However the proprietary nature of the computer models and the complexity of the mathematics used to combine the data sources to arrive at the final selection did very little to quiet the controversy This led to the creation of a selection committee to choose the four best teams to compete in a four team playoff Again controversy has ensued with many questioning the politics and nebulous capricious nature of the criteria We have created an alternate model which we have dubbed the weighted wins system that defines a simple unbiased and consistent mechanism for evaluating and comparing the records of the teams in the NCAA s Bowl Subdivision We have compared the results of the weighted wins model against forty years of actual game

results and found that it generates very similar outcomes The primary difference is that it completely removes politics from the selection process and offers a clear path to the playoffs for all members of the Bowl Subdivision
