You need to refer to **Source A** and **Source B** for this question.

Do not write  
outside the  
box.

Both sources describe the **similar** ways in which drivers behave.

Use details from both sources to write a **summary** of what you understand about the **similar behaviour** of the drivers. [8 marks]

- ① Drivers = irresponsible ("gambing" / "chasing")
- ② Drivers = selfish & inconsiderate
  - ↳ ("war on the roads" / "Hi!")

Both sources illustrate the similar ways the drivers behave as Source A and Source B reveal that the drivers whom the cyclists encounter are irresponsible in their conduct. The author of Source A illustrates that the driver acted dangerously as they were "gambing" on the fact that the cyclist would not swerve or shift position. Moreover in Source B, the German drivers were irresponsibly "chasing" the Countess as a fun sport. This illustrates that the cyclists in both sources experience extremely rude drivers who act somewhat inconsiderately toward the cyclists in order to make themselves feel superior. Thus the drivers in Source A and Source B act irresponsibly towards the others who are cyclists.

[Chinese Politics in the Era of Xi Jinping](#) Willy Wo-Lap

Lam, 2015-03-12 Renowned for his coverage of China's elite politics and leadership transitions veteran Sinologist Willy Lam has produced the first book length study in English of the rise of Xi Jinping General Secretary of the Chinese Communist Party CCP since November 2012 With rare insight Lam describes Xi's personal history and his fascination with quasi Maoist values the factional politics through which he ascended the configuration of power of the Fifth Generation leadership and the country's likely future directions under the charismatic princeling Despite an undistinguished career as a provincial administrator Xi has rapidly amassed more power than his predecessors He has overawed his rivals and shaken up the party state hierarchy by launching large scale anti corruption and rectification campaigns With a strong power base in the People's Liberation Army and a vision of China as an awakening lion Xi has been flexing China's military muscle in sovereignty rows with countries including Japan Vietnam and the Philippines while trying to undermine the influence of the United States in the Asia Pacific region While Xi is still fine tuning his art of governance his zero tolerance for dissent and his preoccupation with upholding the privileges of the red aristocracy and the CCP's status as perennial ruling party do not bode well for economic political or cultural reforms Lam takes a close look at Xi's ideological and political profile and considers how his conservative outlook might shape what the new strongman calls the Great Renaissance of the Chinese race

The Moranbong Orchestra. North Korea's weapons of mass propaganda? Julian Klose,2020-03-26 Seminar paper from the year 2019 in the subject History Asia grade 1 0 University of Heidelberg language English abstract The first appearances of the Moranbong orchestra raised hopes of more liberal policies under the then new North Korean leader Kim Jong un Looking at Moranbong to start with seems therefore promising for numerous reasons First the band is a reminder that there is more in North Korea than nuclear weapons and a little rocket man It recognises North Koreans as human beings with a particular taste in music fashion and entertainment living within

the barriers set by the political system Since no political system is totally unresponsive to popular interest research might indicate get an idea of North Koreaness under Kim Jong un Second there is remarkably little research on 21st century North Korean music in general and Moranbong in particular Existing research has explored either a cultural or a technical approach by examining the cultural motives styles or performance techniques Building on these findings this paper asks whether Moranbong could be another tool employed by Kim Jong un to legitimate his regime It is argued here that even a system like North Korea cannot exist repression alone but needs to build a certain degree of support by the population i e legitimacy It is argued here that Moranbong serves both functions by providing a veritable propaganda tool to the North Korean regime This tool can be directed at both the domestic and foreign audiences by implementing associations and symbols recognized by the respective audiences Pyongyang can adjust this tool to serve the expectations of the respective audiences This means neither a cultural liberalization nor putting old revolutionary wine into new aesthetic forms but a new style of North Korean music in the 21st century The argument is examined as a historical case study drawing on North Korean primary and secondary sources The methods and challenges of the methodology are further explained in the next chapter as well as the theoretical framework of legitimation and propaganda The third chapter offers a discussion of the contested concepts The fourth chapter illustrates the theoretical argument in an empirical analysis Particular attention is paid to the performance style the content and the international context of the Moranbong performances Chapter five sums up the analysis discusses its limitations and outlines possibilities for further research *American Book Publishing Record Cumulative, 1876-1949: Non-Dewey decimal classified titles* R.R.
