**Forthcoming Books** Rose Arny,2000 *Currency Wars with China and Japan in Western Newsmagazines* Damien Ng,2022-02-27 This book explores China's currency wars with its trading partners in four Western newsmagazines Time The Economist L Express and Der Spiegel Based on both quantitative and qualitative approaches the interdisciplinary approach adopted in the research draws on two analytical frameworks from the realm of critical discourse analysis van Leeuwen's socio semantic inventory of social actor representation and van Dijk's concepts of macro rules as the overarching approaches to understand the changing dynamics of international relations and the global economy through Western media The sample in this study consists of 160 texts half of which are focused on China and the other half on Japan across a period of 12 months in 2010 China and in 1987 Japan Through the comparison of Western representation between China and Japan the similarities and differences in their coverage have been revealed as even more striking with regards to global politics and the international economy The findings obtained from the empirical research have revealed that China was not only reported more unfavourably than Japan in terms of depth but also across a broader range of areas spanning economics politics and military affairs It has also emerged that all the four Western newsmagazines tended to centre their coverage on the US and China in 2010 and the US and Japan in 1987 although they did not speak in one collective voice with regard to their coverage of China and Japan

**Continuing Mandarin Chinese Textbook** Cornelius C. Kubler, 2020-10-20  
Continuing Mandarin Chinese Textbook is a new intermediate level course in Mandarin which enables you to quickly learn the next level of the language following the first book in the series Elementary Mandarin Chinese Textbook. The 24 lessons in this book are meant to be used in 3 hours per week of class instruction over one academic year. Students will need another 2-3 hours of outside practice and review for every hour of class time using the materials in the Continuing Mandarin Chinese Workbook that accompanies this textbook. These books can also be used by self study learners due to the extensive explanations and free supplementary materials available including online audio and video recordings and flash cards. The entire course can be completed in 25 to 35 weeks and teaches you the basic skills of listening, speaking, reading and writing Mandarin Chinese at a conversational level. Each lesson starts with a dialogue and includes a list of new and supplementary vocabulary along with questions and grammar notes about the dialogue, a reading section and extensive exercises that are in the Workbook. Continuing Mandarin Chinese Textbook offers the following significant advantages over other similar textbooks: Everyday Chinese dialogues are used for listening and practice, complete with vocabulary lists and questions and storylines based on actual everyday experiences in China. Chinese grammar is explained in simple, non-technical terms with useful notes and tips given. Reading exercises are provided for all new words and phrases in each lesson. Free online audio recordings by native speakers from various parts of China help you not only acquire correct pronunciation but also to understand Chinese speakers who have different accents. Illustrations and supplementary video clips add authenticity to the dialogues in the book. A Chinese-English dictionary is provided at the back for easy reference. Chinese characters and Pinyin Romanized forms are used throughout the book except for the reading exercises so this book is usable by learners who wish to focus on learning the spoken language and do not necessarily want to learn to read and write Chinese. This textbook should be used with the accompanying Continuing Mandarin Chinese Workbook and with the accompanying audio files which can be downloaded free directly from the Tuttle website.
